Introductory Section

SARASOTA COUNTY COURTHOUSE

On July 1, 1921, Sarasota County came into existence. Interest in breaking away from Manatee County had led to a series of public meetings the previous summer. Lack of good roads, inadequate representation in Tallahassee, and subjection to isolation by other sections of the county were among the grievances cited by the citizens.

For nearly five years, the new county government operated out of the Hover Arcade, a building at the foot of Sarasota's Main Street that also housed Sarasota City Hall. County officials used a temporary building on Oak Street for another year before moving into the courthouse.

By late 1924, the Board of County Commissioners began steps to construct a county courthouse. Charles and Edith Ringling conveyed land for the building. In March 1925, the Commissioners hired nationally renowned architect Dwight James Baum to be the supervising architect for the courthouse and in June they approved the preliminary drawings. In September they awarded the construction contract to Stevenson & Cameron, Inc., of New York. By February 1927 county officials completed their move into the new building.

KAREN E. RUSHING

Clerk of the Circuit Court and County Comptroller

February 20, 2024

To the Citizens of Sarasota County, Florida:

We are pleased to present to you the Annual Comprehensive Financial Report of Sarasota County, Florida for the fiscal year ended September 30, 2023.

The Clerk of the Circuit Court and County Comptroller, by authority of the Constitution of the State of Florida, is responsible for both the accuracy of the presented data as well as the completeness and fairness of the presentation. We believe the data, as presented, is accurate in all material aspects, that it is presented in a manner designed to fairly set forth the financial position and results of the operations of the County, and that all disclosures necessary to enable the reader to obtain a comprehensive understanding of the County have been included.

Internal controls for the County have been designed to provide reasonable assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintain accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the evaluation of costs and benefits requires estimates and judgments by management.

Chapter 218.39 of the Florida Statutes requires an annual independent certified public accountant's financial audit of counties in the State. This requirement has been met for the fiscal year ended September 30, 2023. In addition to meeting the requirements set forth in the state statutes, the audit was designed to meet the requirements of the *Government Auditing Standards*, the audit requirement of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance or UG), and the Rules of the Auditor General, Chapter 10.550.

The County's financial statements were audited by Carr, Riggs & Ingram, LLC., an independent certified public accounting firm. The purpose of the audit is to provide reasonable assurance that the financial statements are free from material misstatement. Based on their audit, the independent auditors concluded that there was a reasonable basis for rendering an unmodified opinion that the County's financial statements, for the fiscal year ended September 30, 2023, were fairly presented in conformity with Generally Accepted Accounting Principles (GAAP). The independent auditors' report is located at the front of the Financial Section of this report. The independent auditors' reports related specifically to *Government Auditing Standards* and the single audit are included in the Single Audit Grants Compliance Section.

Management's Discussion and Analysis (MD&A) can be found immediately following the independent auditors' report. The MD&A provides a narrative introduction, overview, and analysis of the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

County profile

Sarasota County is a political subdivision of the State of Florida and was formally incorporated in 1921. Located on the southwest coast of Florida, the County is a 725 square mile area with outstanding natural beauty. The resident population served is approximately 464,223. The resident population includes Unincorporated County (pop. 288,097) and four municipalities: the cities of Sarasota (pop. 57,005), Venice (pop. 27,793), North Port (pop. 86,552) and the Town of Longboat Key (pop. 4,776). Sarasota County is empowered to levy a property tax on both real and personal property located within its boundaries.

On November 3, 1971, the citizens of Sarasota County adopted a Home Rule Charter in accordance with the Constitution and Statutes of the State of Florida. The Home Rule Charter sets forth a “commission” form of government under which a five member Board of County Commissioners is elected to serve as the executive and legislative body for the County.

The County Commissioners appoint both a County Administrator and a County Attorney. The County Administrator’s duties include the administration of directives and policies of the Commissioners, responsibility for the operation of all Departments and provision of services under the purview of the Commissioners. The County Attorney represents the officials and employees of Sarasota County in all legal matters relating to the discharge of their official duties. The citizens of the County also elect a Sheriff, a Clerk of the Circuit Court and County Comptroller, a Supervisor of Elections, a Tax Collector and a Property Appraiser, whose responsibilities and duties are set forth in the State Constitution. Sarasota County offers many services to its citizens including fire and police protection; emergency medical services; construction and maintenance of street and traffic systems, highways, bridges and other infrastructure; preservation and maintenance of beaches, parks and environmentally sensitive lands; recreational facilities, programs and cultural activities; comprehensive planning and community development; community information and education programs; health and human services; water and wastewater utilities; solid waste disposal facilities; storm water utility facilities; and public transportation activities.

The financial statements of Sarasota County include all governmental functions and operations for which the County is financially accountable. The financial statements include the General Fund and all of the elected officials referred to above, since the County Commissioners are responsible for incorporating the annual operating budget for each elected official into the County’s budget. Separate financial statements may be obtained for these constitutional officers through the Clerk of the Circuit Court and County Comptroller’s office. The financial statements also include various other special taxing districts, which are defined in Note 1, Section A to the financial statements.

The Clerk of the Circuit Court and County Comptroller publishes two supplementary documents each fiscal year to provide citizens additional information relating to financial matters of the County. The Consolidated Major Revenue and Debt Report provides a summary and description of the County’s primary revenue sources along with information related to the extent, nature and purpose of the County’s indebtedness, including arbitrage. In addition, the Popular Annual Financial Report (PAFR), also known as the IMPACT Report, is designed to provide the citizens of the County with an understanding of where County revenues came from and how those dollars were managed and spent in an easy to read format. These publications may be obtained from the Clerk of the Circuit Court and County Comptroller’s website (www.sarasotaclerk.com).

Sarasota County follows the laws of the State of Florida regarding the control, adoption and amendment of the budget during each fiscal year. Formal budgetary integration is employed as a management control device during the year for all fund types. The County Budget Officer must submit a tentative budget to the County Commissioners prior to July 15th of each year for the following fiscal year. The budget may be amended up until 60 days after the end of the fiscal year. Budgets for all funds, except for capital project funds and proprietary funds, are adopted on a basis consistent with GAAP. Capital project funds are prepared for the project life rather than for the current fiscal year. The financial plan may be obtained from the Office of Financial Management’s website (www.scgov.net).

Local economy

The local economy has been steadily improving over the past few years. The unemployment rate for Sarasota County averaged 2.8 percent for fiscal year 2023, which is slightly higher than that of the prior fiscal year and the State rate, but still remains below the National unemployment rate. Taxable property values increased 14.2 percent and County population continued to increase over the prior fiscal year.

During fiscal year 2023, Sarasota County saw a 2.0 percent increase in tourists visiting the area with almost 3.1 million visitors. Local beach communities have earned an international reputation as a family vacation destination. The County is known for its thriving art community, with world-class facilities including the Van Wezel Performing Arts Center. Sports tourism is strong with two Major League Baseball spring training stadiums and a premier rowing facility. The area is service industry oriented and the largest job sectors are healthcare and social assistance, government, accommodation and food service, and retail trade. Sarasota County is the winter home for approximately seventy-nine thousand out-of-town residents.

Long-term financial planning

The County's budget is developed for a five-year horizon. Each department prepares a five-year financial plan that addresses financial sustainability and efficient delivery of services. A five-year capital improvement program has been developed and integrated into the five-year financial plans. Management has developed fiscal policies for the adopted financial plan regarding reserves, transfers, capital improvements, fund balances, and revenues. The Board of County Commissioners has formally adopted a Debt Management Policy, an Investment Policy, and a Financial Reserves Policy. The Investment Policy is described in Note 1, Section D to the financial statements and the Financial Reserves Policy is described in Note 1, Section Q to the financial statements.

Both Fitch and Standard & Poor's, national bond rating agencies, reflect the County as having a AAA General Obligation (G.O.) Bond rating. The General Fund's fund balance increased from \$117.8 million at September 30, 2022 to \$144.9 million at September 30, 2023. The majority (82.8 percent) of the General Fund's fund balance of \$144.9 million has been classified in accordance with the Financial Reserves Policy including provisions for a Contingency/Emergency/Disaster Relief Reserve, a Budget Stabilization/Economic Uncertainty Reserve, and a reserve for compensated absences (unpaid but earned vacation and sick leave), leaving an assigned subsequent years expenditure budgetary fund balance (fund balance budgeted to be used in fiscal year 2024) of \$22.9 million (15.8 percent).

Relevant financial policies

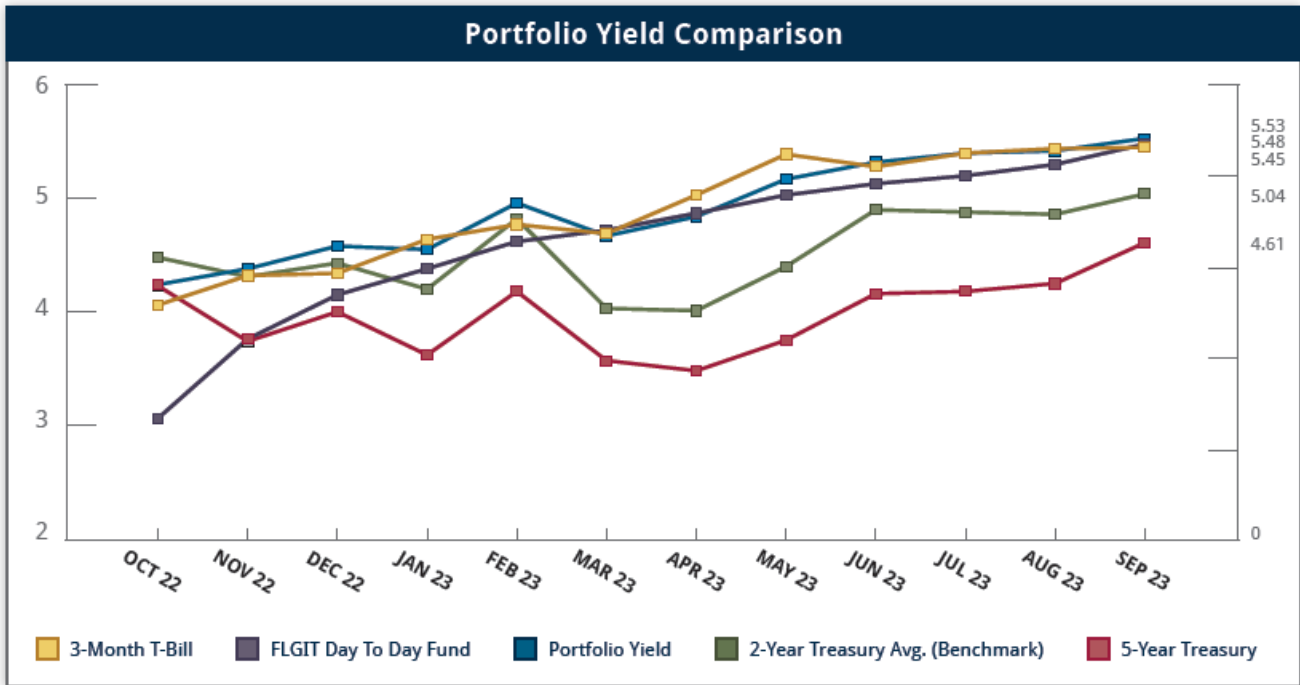

Consistent with the County's Debt Management Policy, outstanding debt is continually monitored in relation to existing conditions in the debt market. When sufficient cost savings can be realized, the debt will be refunded.

The Investment Policy was established by ordinance in 1989 and most recently amended in September 2023. The Investment Policy emphasizes safety of capital as the highest priority. To ensure the safety and the protection of the public's assets, the investment portfolio shall be designed with the annual objective of exceeding the average return on the corresponding Treasury maturity, based on the portfolio's average duration. The portfolio is actively managed to maximize the return on investments by diversifying maturity dates and asset classes. The portfolio is structured to provide sufficient liquidity to pay current obligations.

Sarasota County continues to uphold prestigious recognition from the Association of Public Treasurers of the United States and Canada (APT US&C) for its investment policy and maintains the Association's Investment Policy Certificate of Excellence Award. This is the fourth time Sarasota County has received this accreditation and denotes the County has a sound investment policy founded upon professional standards to assist in ensuring prudent management of public funds.

Additionally, the Sarasota County Investment Policy holds an "AAAF" International Fund Credit Quality Rating (FCQR) and "S1" Fund Market Risk Sensitivity Rating (MRSR) based on Fitch Ratings. The rating reflects Fitch's review of the portfolio's investment and credit guidelines, the portfolio's credit quality and diversification. The "AAAF" FCQR indicates the highest underlying credit quality (or lowest vulnerability to default.) The "S1" MRSR indicates a very low sensitivity to market risk.

In fiscal year 2023, the County portfolio, under the direction of the Clerk of Circuit Court and County Comptroller, maintained a weighted average yield of 4.92 percent. The following graph illustrates the County's monthly portfolio yield in comparison to several benchmarks during fiscal year 2023.

The County earned a total of \$57.2 million in interest income over the past three years, of which \$37.0 million was earned in fiscal year 2023.

Major Initiatives - Annual Action Agenda

Each year the Board adopts a 15-year Strategic Plan that incorporates its Policy Agenda and Action items. That plan provides an opportunity to directly associate the goals of our strategic plan with the annual Financial Plan. In many instances, items selected for the Board Policy Agenda are explored more fully in a strategic plan year, and then become part of future strategic plans as Administration Agenda Items or within the Department Actions or Major Projects. This process ensures that Board driven strategic planning is prioritized as part of the budget process.

Our community has seen major initiatives such as the Legacy Trail Extension, water quality, infrastructure improvements, and the future of County Administration locations move through the strategic planning process from Board priorities to departmental implementation. This is an essential component of aligning the Board-adopted Strategic Plan to the annual Financial Plan.

The 2023 Strategic Plan identifies 13 Board Policy Items as the Board's top priorities. The Board Policy Agenda Items include:

- Affordable Housing: What's left
- Contracted Social Services
- Design Flood Evaluation: FEMA lowering base flood
- EDC Future
- Fruitville Expansion Phase 1 & 2
- Health of the Bay: Midnight Pass and future openings
- Indoor Sport Facility Design-Employee Shelter Opportunity
- Jail Future State
- Review Opportunities for Increased Public Access to Preserve & Protected Lands
- South County Regional Park Planning
- South River Road
- South River Road Public/Private Partners
- SWFWMD Project Funding

There are 235 actions identified in the 2023 Policy Item and Action Agenda. In each case, a department owner is responsible for the management of the action. Department owners work in collaboration with their counterparts to track and report action progress. Through this process, the organization is evolving to focus efforts on the strategic plan while continuously making improvements. Since the adoption of these priorities, the County has aligned work plans to emphasize efforts in these areas which are funded as part of the fiscal year 2023 Adopted Financial Plan.

Awards and acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Sarasota County for its Annual Comprehensive Financial Report for the fiscal year ended September 30, 2022. This was the thirty-ninth consecutive year that Sarasota County received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Annual Comprehensive Financial Report continues to meet the Certificate of Achievement Program requirements and we will submit it to the GFOA to determine its eligibility for another certificate.

In addition to being awarded the Certificate of Achievement, Sarasota County was issued the Distinguished Budget Presentation Award for fiscal year 2023. This was the thirty-third consecutive year that Sarasota County received this award.

Sarasota County and the Clerk of the Circuit Court and County Comptroller received its eleventh consecutive Outstanding Achievement in Popular Annual Financial Reporting (PAFR) recognition from the Government Finance Officers Association for its IMPACT Report for the year ended September 30, 2022.

This Annual Comprehensive Financial Report is a product of the dedication of the Finance Department of the Clerk of the Circuit Court and County Comptroller of Sarasota County as Auditor and Accountant for the Board of County Commissioners. Recognition goes to: Torrance Colon, Michael Dunlop, CPFIM, Lisa Glover, Anthony Kiwczak, CPA, Leighann Kooy, Luke Ogle, John Oravec, FMVA, Nina Plotkina-Mahadeo, CFE, Elizabeth Ramsden, Marcello Romeiro, Jennifer Wion, and Katherine Woodruff, CGFO, APM, CPRS.

We would like to thank the County Administrator and his staff, the County Attorney, the Board of County Commissioners, and the other Constitutional Officers for their dedicated support in planning and conducting the financial operations of the County in a responsible and fiscally prudent manner.

Sincerely,

Karen E. Rushing,
Clerk of the Circuit Court and County Comptroller

Nicole E. Jovanovski, CPA
Director of Finance

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to Sarasota County for its Annual Comprehensive Financial Report for the fiscal year ended September 30, 2022.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Annual Comprehensive Financial Report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting to GFOA for review.

SARASOTA COUNTY COURTHOUSE

On July 1, 1921, Sarasota County came into existence. Interest in breaking away from Manatee County had led to a series of public meetings the previous summer. Lack of good roads, inadequate representation in Tallahassee, and subjection to isolation by other sections of the county were among the grievances cited by the citizens. For nearly five years, the new county government operated out of the Hover Arcade, a building at the foot of Sarasota's Main Street that also housed Sarasota City Hall. County officials used a temporary building on Oak Street for another year before moving into the courthouse. By late 1924, the Board of County Commissioners began steps to construct a county courthouse. Charles and Edith Ringling conveyed land for the building. In March 1925, the Commissioners hired nationally renowned architect Dwight James Baum to be the supervising architect for the courthouse and in June they approved the preliminary drawings. In September they awarded the construction contract to Stevenson & Cameron, Inc., of New York. By February 1927 county officials completed their move into the new building.

INDEPENDENT AUDITOR'S REPORT

Honorable Members of the
Board of County Commissioners
Sarasota County, Florida

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of Sarasota County, Florida (the "County"), as of and for the year ended September 30, 2023, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of Sarasota County, Florida, as of September 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund and the Emergency Services, Capital Revenue Programs and the Federal, State & Local Grants Special Revenue Funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Board of County Commissioners of Sarasota County, Florida and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 29 - 41, and the schedules of changes in the County's net OPEB liability and related ratios, the schedule of contributions for the County's OPEB trust fund, the schedules of the County's proportionate share of the net pension liability and the schedules of the County's contributions to the pension plans on pages 160 - 177 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and schedule of federal awards and state financial assistance as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and Chapter 10.550, Rules of the Auditor General are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards and state financial assistance, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

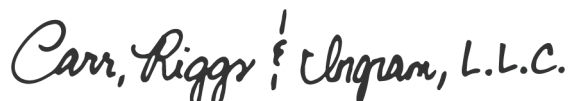

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 20, 2024, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of Sarasota County, Florida, we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended September 30, 2023. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 11-16 of this report.

Financial Highlights

- The assets and deferred outflows of Sarasota County exceeded its liabilities and deferred inflows at the close of the fiscal year by \$2.9 billion (net position). Of this amount, \$219.6 million (unrestricted net position) may be used to meet Sarasota County's ongoing obligations to citizens and creditors.
- Total net position increased by \$177.7 million during the current fiscal year. The major contributors to this increase are described on page 32.
- At the close of the current fiscal year, governmental funds reported combined ending fund balances of \$735.7 million, an increase of \$87.4 million during the current fiscal year.
- In accordance with the Financial Reserves Policy adopted by the Board of County Commissioners, the County committed approximately \$64.7 million of General Fund fund balance and allocated assigned General Fund fund balance of \$30.3 million. The County also maintains financial reserves in other general government, enterprise and internal service funds in accordance with this policy. Additional information on this policy is available in Note 1, Section Q, to the financial statements.
- Total debt increased by \$4.4 million, or 0.5 percent during the current fiscal year. Additional information on debt activity is available in Note 7 to the financial statements beginning on page 116.
- Sarasota County's General Fund fund balance increased by \$27.1 million this fiscal year. Key factors in this increase are listed on page 37.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Sarasota County's basic financial statements. Sarasota County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains a statistical section, single audit and other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of Sarasota County's finances, in a manner similar to private-sector financial statements.

The *statement of net position* presents Sarasota County's assets plus deferred outflows of resources less liabilities plus deferred inflows of resources. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Sarasota County is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items which will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of Sarasota County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of Sarasota County include general government, public safety, physical environment, transportation, economic environment, human services, and culture and recreation. The business-type activities of Sarasota County include the Utility System, Solid Waste System, Stormwater Utility and Transit.

The government-wide financial statements can be found on pages 44-47 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Sarasota County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of Sarasota County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Sarasota County maintains many individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Emergency Services Special Revenue Fund, the Capital Revenue Programs Special Revenue Fund, Federal, State and Local Grants Fund, Infrastructure One-Cent Sales Tax Capital Projects Fund, and the Debt Proceeds Capital Projects Fund, all of which are considered to be major funds. Data from the remaining governmental funds are combined in a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

Sarasota County adopts an annual budget as described in Note 2 to the financial statements. A budgetary comparison statement has been provided for the General Fund and each major special revenue fund to demonstrate compliance with this budget. The budgetary comparison schedules for any non-major governmental fund, which is required to adopt an annual budget is presented in the *combining statements* elsewhere in this report.

The basic governmental fund financial statements can be found on pages 48-55 of this report.

Proprietary Funds. Sarasota County maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. Sarasota County uses enterprise funds to account for its Utility System (water and wastewater utility services), Solid Waste System (solid waste disposal facilities), Stormwater Utility (Stormwater facilities) and Transit (public transportation activities). *Internal service funds* are an accounting device used to accumulate and allocate costs internally among Sarasota County's various functions.

Sarasota County uses internal service funds to account for Fleet Services, Information Technology, Risk Management, Medical Benefits, Workers' Compensation, Public Works, Field and General Service's activities, and Sheriff's Insurance. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

The proprietary fund statements provide separate information for the Utility System, Solid Waste System, Stormwater Utility and Sarasota County Transit, of which all are considered to be major funds of Sarasota County except for the Transit. The internal service funds are combined into a single, aggregated presentation in the proprietary fund statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 62-75 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support Sarasota County's own programs.

The basic fiduciary fund financial statements can be found on pages 76-77 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 79-155 of this report.

Required supplementary information. The required supplementary information (RSI) contains schedules related to the changes and contributions for the County and Sherriff's other post-employment benefits (OPEB) liability, OPEB's related ratios and schedule of proportionate share of net pension liability. The required supplementary information section can be found on pages 158-187 of this report.

Other Information. The combining statements referred to earlier in connection with the non-major governmental funds and internal service funds can be found on pages 181-255.

The statistical section contains selected data regarding financial trends, revenue capacity, debt capacity, demographic and economic conditions, and operating indicators of the County. This section can be found on pages 265-313.

The other supplementary information section contains continuing bond disclosures and schedules relating to debt service. This section can be found on pages 316-387.

The single audit grants compliance section lists the expenditures of Federal Awards and State Financial Assistance during the fiscal year and presents grant compliance information and auditor reports. This section can be found on pages 394-398.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial condition. Assets and deferred outflows exceeded liabilities and deferred inflows by \$2.9 billion at the close of the most recent fiscal year for Sarasota County.

The largest portion of Sarasota County's net position, \$2.2 billion or 74.7 percent, reflects investment in capital assets such as land, buildings, infrastructure, and equipment, less any related outstanding debt used to acquire those assets. Sarasota County uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although Sarasota County's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A portion of Sarasota County's net position, 17.7 percent, represents resources that are subject to external restrictions on how they may be used. Unrestricted net position, \$219.6 million, may be used to meet the government's ongoing obligations to citizens and creditors.

As can be seen from the table above, the County reported an increase in the total net position from a government wide perspective. The County reported positive net position in all categories from a government-wide perspective, with the exception of unrestricted net position for Governmental Activities. This is a direct result of changes in the long-term net pension liability associated with the County and should not be considered, solely, as evidence of economic financial difficulties.

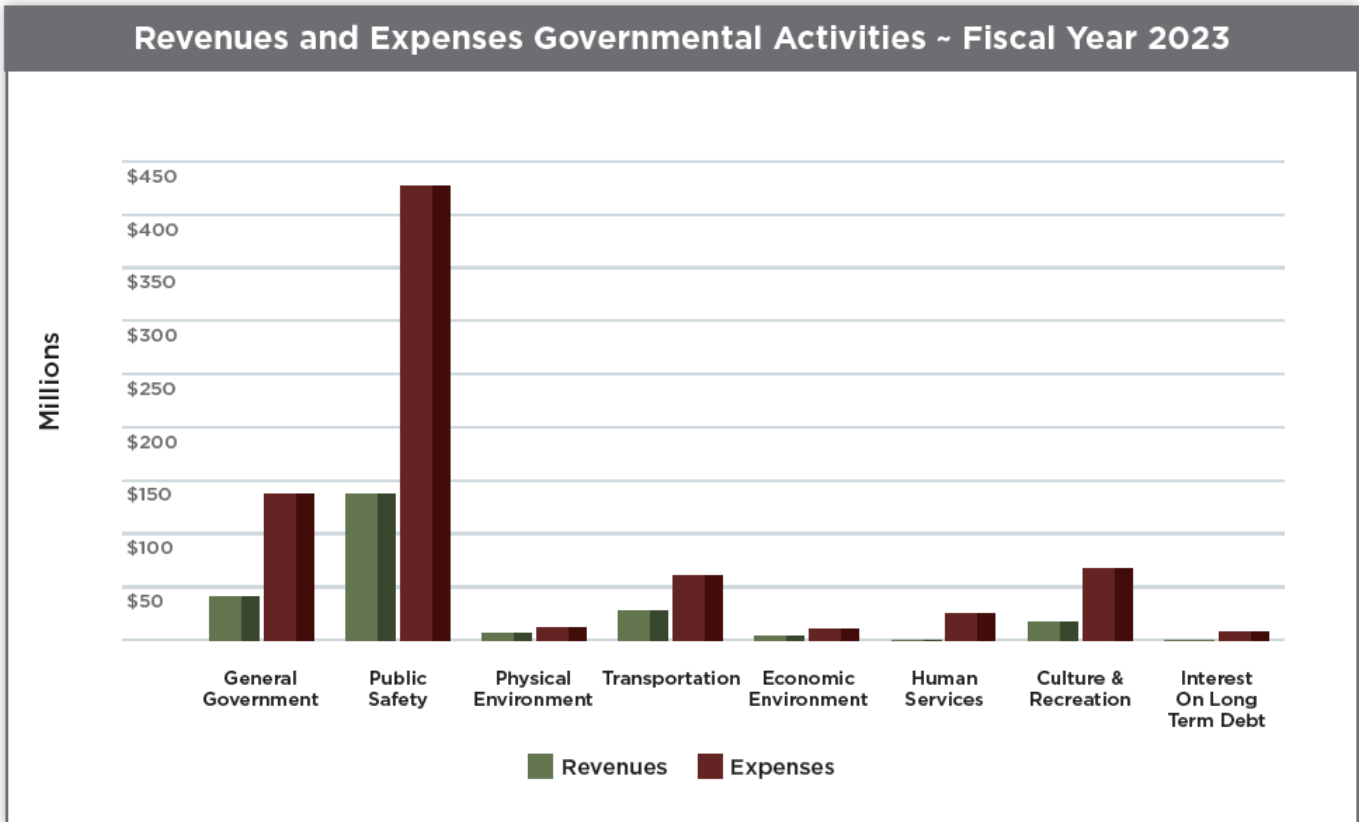

Significant changes in the statement of net position are as follows:

- Current and other assets for both governmental and business-type activities increased by \$144.2 million, or 10.0 percent from the prior fiscal year. The increase is largely related to the receipt of bond proceeds, and increases in intergovernmental receivables for Governmental Activities.
- Capital assets for governmental and business-type activities increased by \$130.0 million, or 4.9 percent from the prior fiscal year. Information regarding the composition of this increase can be found in the capital asset section of this analysis on page 39.
- Long-term liabilities for both governmental and business-type activities increased by \$47.8 million, or 3.9 percent from the prior fiscal year due to an increase in net pension liability which is further described in Note 10 on beginning on page 137.

Revenues and expenses for governmental activities are shown graphically by function. Public safety is the largest category of expenses followed by general government.

Revenues for governmental activities are shown below, graphically by type. The largest type of revenue for governmental activities is ad valorem taxes followed by charges for services.

Revenues and expenses are shown by business-type activity. The Utility System (water and wastewater utilities) is the largest business-type activity followed by the Solid Waste System.

Revenues for business-type activities are shown graphically by type. The largest type of revenue is charges for services followed by capital grants and contributions.

Governmental activities. Governmental activities resulted in a \$68.0 million increase in net position because of current fiscal year activities.

- Revenues related to governmental activities increased by \$113.7 million, or 16.0 percent. The change in revenue is largely due to the following:
 - Property tax revenues increased by \$47.0 million, or 17.4 percent reflective of the increases in taxable assessed property values.
 - Local government sales tax revenue increased by \$6.9 million, or 6.7 percent, due to continued economic growth.
 - Capital grants and contributions revenue increased by \$10.5 million, or 26.2 percent due to the receipt of grant revenue related to Hurricane Ian recovery.
 - Operating grants and contributions revenue decreased by \$16.2 million or 28.5 percent due to grants related to the American Rescue Plan funds received in the prior year.
 - Investment earnings revenue increased by \$73.2 million due to market changes in the current year compared to the prior year.
- Expenses in governmental activities increased approximately \$178.4 million, or 31.6 percent. Key factors that contributed to the increase in expenses are identified below.
 - General government expenses increased by \$9.8 million, or 7.7 percent largely due to increases in pension expense.
 - Public safety expenses increased by \$154.3 million, or 57.1 percent mainly due to increases in number of sheriff deputies and employees, design and building construction costs of the Emergency Medical Services training facility, renovation of existing fire stations and sheriff headquarters and upgrading personal protective equipment and vehicles.
 - Transportation expenses increased by \$13.1 million, or 27.6 percent largely due to an increase in project spending.

Business-type activities. Business-type activities were responsible for \$109.7 million of the total growth in Sarasota County's net position for the current fiscal year.

- Revenues for business-type activities increased by \$69.3 million, or 27.4 percent. Key factors that contributed to the increase in revenues are identified below.
 - Charges for services increased by \$30.1 million, or 13.8 percent largely due to overall growth in the County impacting water, wastewater and solid waste charges.
 - Operating grants and contributions revenue increased by \$1.7 million, or 18.7 percent due to an increase of water and wastewater impact fees collected.
 - Investment earnings revenue increased by \$38.4 million due to market changes in current year compared to the prior year.
- Expenses for business-type activities decreased by \$32.9 million, or 12.7 percent. Key factors that contributed to the increase in expenses are identified below.
 - The Utility System (water and wastewater utilities) expenses increased by \$23.3 million, or 18.6 percent due to increases in water purchases and treatment costs.
 - The Solid Waste System expenses decreased by \$67.8 million, or 83.5 percent due to Phase III of the Central Landfill being completed. The completion of Phase III increased availability by 20.8 million cubic yards and reduced the liability expense by \$46.1 million.

Financial Analysis of the Government's Funds

As noted earlier, Sarasota County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of Sarasota County's *governmental funds* is to provide information on near-term inflows, outflows and balances of *spendable resources*. Such information is useful in assessing Sarasota County's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, Sarasota County's governmental funds reported combined ending fund balances of \$735.7 million, an increase of \$87.4 million compared to the prior year. The unassigned fund balance of a negative \$1.2 million is mostly attributed to the delay in Federal Emergency Management Agency approving project worksheets related to Hurricane Ian. Further information regarding unassigned fund balance can be found in the governmental funds financial statements starting on page 48. The remainder of fund balance is restricted, committed, assigned or non-spendable. These amounts totaled \$737.0 million or 93.2 percent of ending fund balance. Of this amount, \$534.9 million is restricted by law or externally imposed requirements, \$169.6 million is committed for specific purposes by the Board of County Commissioners and \$30.3 million is assigned for various purposes by the County Administrator.

The General Fund is the chief operating fund of Sarasota County. The General Fund represents 46.4 percent of the total governmental revenues. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$49.9 million, while the total fund balance was \$144.9 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 15.7 percent of the total annual General Fund expenditures, and total fund balance represents 45.5 percent.

The fund balance of Sarasota County's General Fund increased by \$27.1 million during the current fiscal year. Key factors in the change in fund balance are as follows:

- Taxes collected exceeded the budget by \$5.3 million as a result in increases of assessed property values from the prior fiscal year.
- Intergovernmental revenues exceeded the budget by \$14.2 million due to increased economic activity.
- Investment earnings revenue increased by \$10.1 million due to market changes in the current year compared to the prior year.

Additional information regarding the General Fund budget to actual variances can be found on pages 56-57.

The Emergency Services Special Revenue Fund has a total fund balance of \$18.4 million, a decrease of \$2.2 million over the prior fiscal year. This fund balance must be used for fire and ambulance emergency services. The County utilizes a non-ad valorem Fire Assessment for the purposes of funding fire services. The special assessment service charge collected increased by 4.4 percent which is reflective of the County's growth and development and includes an average 3.3 percent rate increase in Fire-Rescue Assessments for fiscal year 2023. Expenditures includes \$7.3 million over the prior fiscal year primarily due to an increase in personnel services.

The Capital Revenue Programs Special Revenue Fund has a total fund balance of \$103.7 million, an increase of \$11.9 million over the prior fiscal year. The fund received \$61.3 million in local infrastructure one-cent sales tax and \$41.3 million for impact and mobility fees to fund the County's infrastructure needs. The fund transferred \$64.8 million to various capital projects to include road way resurfacing, park improvements and infrastructure updates including traffic circles and adding lanes to existing roads. It also transferred \$30.9 million to infrastructure projects such as building updates and jail renovations.

The Federal, State and Local Grant Funds and has a total fund balance of negative \$42.7 million, a decrease of \$43.71 million over the prior fiscal year mainly due to expenses incurred for Hurricane Ian recovery that haven't been approved by Federal Emergency Management Agency for reimbursement yet. During the fiscal year, \$93.8 million has been spent on grant eligible expenditures.

The Infrastructure One-Cent Sales Tax Capital Projects Fund has a total fund balance of \$80.1 million, an increase \$6.7 million from the prior fiscal year. This increase is a result of changes in capital construction related expenses and the timing of funding for the projects, the majority of which, \$16.7 million, is allocated to Transportation. Transportation expenditures included costs for the County's roadway resurfacing, sidewalk program and road improvement projects.

The Debt Proceeds Capital Project Fund has a total fund balance of \$32.4 million, an increase of \$24.5 million from the prior fiscal year. This increase is largely a result of the issuance of the Capital Improvement Revenue Bonds, Series 2023A, in the amount of \$24.6 million. The fund balance must be used to account for specific general government capital improvements that are financed by the issuance of general obligation and non-self-supporting revenue bonds. During fiscal year 2023, \$2.0 million was spent on capital projects during the current fiscal year, primarily related to general government activities.

Proprietary Funds. Sarasota County's proprietary funds provide the same type of information found in the government-wide statements but in more detail.

Despite an increase in overall net position of the utility system of \$47.0 million, unrestricted net position decreased by \$2.9 million due to the acquisition and construction capital assets. The Solid Waste System unrestricted net position increased by \$58.2 million to \$92.8 million at the end of the current fiscal year. This is a result of a decrease in the landfill closure liability as Phase III of the central facility was completed and began accepting waste this fiscal year. The Stormwater Utility unrestricted net position increased \$4.8 million to \$25.5 million at the end of the current fiscal year, primarily due to increase in storm water assessment revenues due to stormwater environmental utility rate model change in the prior year. Transit reported a decrease in unrestricted net position of \$2.0 million and reported negative unrestricted fund balance of \$2.2 million at the end of the current fiscal year. This is a result of an increase to net pension liability, which varies annually. Unrestricted net position in the proprietary funds is available to fund future needs of their respective activities. Other factors concerning the finances of these funds have previously been addressed in the discussion of Sarasota County's business-type activities on page 36.

Unrestricted net position in the internal services funds amounted to \$58.9 million at the end of the current fiscal year, a decrease of \$13.3 million over the prior fiscal year. The County's Risk fund reported a negative unrestricted net position of \$424.0 thousand which was an increase of \$2.0 million from prior fiscal year. This change was a result of an increase in the actuarial determined vehicle liability that impacted claims paid. The Public Work's Fund reported a negative unrestricted net position of \$2.8 million which was an increase of \$996.0 thousand which was largely due to the application of pension related accounts. The information Technology Fund reported a negative unrestricted net position of \$3.7 million as a result of the acquisition of capital assets, the application of pension related accounts and the application of right-to-use subscription assets.

General Fund Budgetary Highlights

During the current fiscal year, the Board of County Commissioners approved a \$5.4 million increase in appropriations between the original and the final amended budget. There were no significant budgetary variances between the original and the final amended budget.

Budget to actual variances for the General Fund are listed below:

- General government expenditures were \$8.9 million under budget in part due to conservative spending.
- Appropriations for culture and recreation services were unspent during fiscal year 2023 in the amount of \$3.8 million due to a fluctuations in personnel and operating services.
- Budgetary fund balance of \$34.6 million was budgeted to be used in fiscal year 2023; however, none was used.

Capital Asset and Debt Administration

Capital assets. Sarasota County's investment in capital assets for its governmental and business-type activities, at the end of the current fiscal year, amounted to \$2.8 billion (net of accumulated depreciation). This investment in capital assets is comprised of land, land rights, right of ways/easements, building and building improvements, equipment, software, water rights, construction in progress, and infrastructure. Infrastructure consists predominantly of roads and streets (including peripherals) and bridges within governmental activities, and of water and wastewater systems, Stormwater facilities and landfill infrastructure within business-type activities. The County's total investment in capital assets for the current fiscal year increased by 4.9 percent. During fiscal year 2023, the County capitalized significant lease agreements and software-based subscription services. These amounts have been added to the capital assets (net amortization) in table shown below.

Capital Assets, Net of Depreciation (in thousands)

	Governmental Activities		Business-type Activities		Total	
	2023	2022	2023	2022	2023	2022

Major capital asset events during the current year included:

- Downtown cooling plant replacement for Ringling corridor in the amount of \$16.5 million.
- County roadway improvements for Venice Grove and Tuttle was completed totaling \$13.0 million.

Additional information on capital asset activity may be found in Note 6 on pages 108-114 of this report.

Long-term debt. At the end of the current fiscal year, Sarasota County had total bonded debt outstanding of \$665.9 million. This amount represents \$54.3 million of General Obligation bonds secured by the full faith, credit and taxing power of the County and \$611.6 million of bonds secured solely by specified revenue sources (revenue bonds).

Outstanding Debt (in thousands)

Total	\$ 325,754	\$ 346,791	\$ 481,618	\$ 456,211	\$ 807,372	\$ 803,002

Sarasota County's total debt increased by \$4.4 million, or 0.5 percent during the current fiscal year.

The County issued Capital Improvement Revenue Bonds, Series 2023A in the amount of \$24.6 million to finance a

portion of the costs of the acquisition and construction of additions, extensions and improvements to a multitude of County approved projects and to pay the cost of issuance of the Series 2023A Bonds.

The County issued Utility System Revenue Bonds, Series 2023 in the amount of \$39.0 million to finance a portion of the costs of the acquisition and construction of additions, extensions and improvements to the County's utility system and to pay the costs of issuance of the Series 2023 Bonds.

A copy of the Debt Management Policy may be found on the website www.sarasotaclerk.com.

Additional information on Sarasota County's long-term debt activity may be found in Note 7 on pages 115-135 of this report.

Economic Factors and Next Year's Budgets and Rates

- Sarasota County had an average unemployment rate of 2.8 percent during the current fiscal year, an increase from the 2.6 percent reported in the previous fiscal year. This rate is higher than the State and lower than the National average for the same time frame.
- The County has been able to maintain or improve the level of services provided while sustaining one of the lowest millage rates in the State of Florida. The aggregate millage countywide rate (including the Emergency Services Municipal Services Taxing Unit) for the fiscal year 2024 adopted budget is 4.0981.
- According to the U.S. Department of Commerce Bureau of Economic Analysis, the County's per capita personal income as of 2022 was \$84,035. This was one of the highest of the 67 Florida counties.
- The assessed value of real estate located in the County after exemptions was valued at \$91.4 billion in the current fiscal year, which reflects an increase of \$11.7 billion or a 14.2 percent increase from the prior fiscal year.
- During the current fiscal year, new residential and nonresidential construction in the County was valued at \$1.2 billion, an 11.5 percent increase over the prior fiscal year.
- The County's investment portfolio maintained a weighted average yield of 4.92 percent for fiscal year 2023.

All of these factors were considered in preparing Sarasota County's budget for the 2024 fiscal year.

The Board of County Commissioners adopted a Financial Reserves Policy in fiscal year 2006 to ensure there are adequate levels of fund balance to mitigate risks and ensure stable tax rates. For fiscal year 2023, the General Fund had sufficient fund balance to classify 58 days of General Fund operating expenditures, as this reserve has been used to stabilize the budget over the past years. A copy of the Financial Reserves Policy may be found on the website provided below.

In accordance with the Financial Reserves Policy, General Fund classifications are reported for Contingency, Emergency and Disaster Relief at \$64.7 million and Budget Stabilization and Economic Uncertainty at \$49.9 million. Additionally, \$5.4 million of fund balance in the General Fund was assigned for compensated absences. Sarasota County has appropriated \$22.9 million of the General Fund's fund balance for spending in the adopted 2024 budget.

For fiscal year 2024, the Board of County Commissioners has assigned \$800 thousand to reserves in the General Fund. The reserves are expended as considered and approved by the Board of County Commissioners throughout the 2024 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of Sarasota County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information may be addressed to:

Sarasota County, Florida
Reconciliation of the Governmental Funds Balance Sheet
to the Statement of Net Position
September 30, 2023

Total fund balances - total governmental funds		\$ 735,738,442
Amounts reported for <i>governmental activities</i> in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds		
Nondepreciable capital assets	\$ 712,391,086	
Depreciable capital assets (net of leased assets)	947,602,510	
Right-to-use lease assets	13,442,751	
SBITA	11,562,364	
Internal Service	(55,178,317)	1,629,820,394
Net OPEB asset, net of internal service funds		923,607
Internal service funds are used by management to charge the costs of certain activities, such as insurance and fleet, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.		
		114,188,881
Amounts are payable to business-type funds resulting from internal service and indirect expense eliminations.		
		(157,460,374)
Deferred amounts on debt refundings		
		4,683,332
Deferred outflows on pensions, net of internal service funds		
		98,788,693
Deferred outflows on OPEB, net of internal service funds		
		7,780,958
Long-term liabilities are not due and payable in the current period, and therefore are not reported in the funds.		
Contracts payable		
		(86,393)
Lease liability, net of internal service funds		
		(9,502,114)
Bonds payable		
		(178,350,000)
Plus: Issuance premium (amortized as interest expense)		
		(18,448,987)
Total pension liability, net of internal service funds

This Page Intentionally Left Blank

Sarasota County, Florida
Reconciliation of the Governmental Funds
Statement of Revenues, Expenditures, and Changes in Fund Balances
to the Statement of Activities
For the Year Ended September 30, 2023

Net change in fund balances - total governmental funds \$ 87,386,955

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Reduction of capital expenditures	\$ 101,112,629	
Reduction for reinstated assets	24,974	
Depreciation expense	(75,777,640)	
Lease amortization expense	(3,228,739)	
		22,131,224

Debt issuances provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount by which repayments exceeded proceeds.

Bond proceeds	\$ 24,575,000	
Bond premium	2,882,628	
Principal payments-bonds	(23,305,000)	
Principal payments-commercial paper	(3,000,000)	
Principal payments-notes	(17,590,513)	
Principal payments-leases	(2,472,891)	
		18,910,776

Internal service funds are used by management to charge the costs of certain activities, such as insurance and fleet, to individual funds. The net revenue (expense) of the internal service funds is reported with governmental activities net of outside services.

8,382,534

Some expenses reported in the statement of activities do not require the use of current financial resources, and therefore, are not reported as expenditures in governmental funds.

Compensated absences	\$ (8,244,545)	
Pension expense	(45,330,279)	
OPEB expense	(510,687)	
Arbitrage	(60,651)	
Bond amortization expense	(4,581,215)	
Lease interest payable	6,882	
Lease interest receivable	431,081	
		(58,289,414)

Internal charges net effect (10,212,713)

Unavailable revenue due from the Florida Department of Revenue (250,852)

Capital assets were transferred to governmental funds from business-type funds 122,107

Capital assets were transferred to business-type funds from governmental funds (179,054)

Change in net position of governmental activities \$ 68,001,563

The notes to the financial statements are an integral part of this statement.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Sarasota County, Florida have been prepared in conformity with Generally Accepted Accounting Principles in the United States (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the County's accounting policies are described below.

A. REPORTING ENTITY

Sarasota County, Florida (the County) is a political subdivision of the State of Florida. The people of the County have adopted a Home Rule Charter in accordance with the constitution and the laws of the State of Florida. The Home Rule Charter sets forth a "commission" form of government under which a five member Board of County Commissioners (Commissioners) is elected to serve as the executive and legislative body for the County. The Commissioners appoint a county administrator whose duties include the administration of directives and policies of the Commissioners and who has responsibility for the operation of all business centers and the provision of services under the purview of the Commissioners. The people of the County also elect a Sheriff, a Clerk of the Circuit Court and County Comptroller, a Supervisor of Elections, a Tax Collector and a Property Appraiser whose responsibilities and duties are set forth in the Home Rule Charter.

The financial statements of the County include all governmental functions and operations controlled by or dependent on the County. Accordingly, the financial statements include with the General Fund all the elected officials referred to above, since the Commissioners are responsible for reviewing and incorporating the annual operating budget for each elected official into the County's budget. Separate financial statements may be obtained for these constitutional officers through the Sarasota County Clerk and Comptroller Finance Department.

The financial statements also include various special districts, such as Public Improvement Districts, Street Lighting Districts, Fire and Ambulance Districts, Facility Service Districts and Mosquito Control District (Chapter 61-2815, Laws of Florida), which are reported as blended component units. These County component units, although legally separated entities, are in substance part of the County's operations and have the same governing board. The financial transactions of these component units are merged in with similar transactions of the County as part of the primary government. There is a financial benefit or burden relationship between the County and these entities.

The Englewood Community Redevelopment Area (Englewood CRA) was established on March 31, 1998 (County Resolution 1998-064) to rebuild, conserve, and redevelop the Sarasota County portion of the Englewood community. The Englewood CRA is governed by the Sarasota County Redevelopment Agency (the Agency) which was established on May 26, 1998 (County Resolution 1998-122) in accordance with Chapter 163, Part III, of the Florida Statutes. The Agency's board consists of the same members as the Sarasota County Board of County Commissioners. The Englewood CRA Advisory Board was established on May 26, 1998 (County Resolution 1998-123) consisting of seven appointed members of the community, reporting directly to the Agency, to make recommendations on matters pertaining to the Englewood CRA and its Redevelopment Plan. The Englewood CRA is considered a blended component unit because there is a benefit or burden relationship between the County and the district including County tax revenue funding sources, County debt borrowings and repayments, and personnel resources provided by the County's Planning and Development Services Department. The financial transactions of the Englewood CRA are included within the financial statements of the primary government.

The Sarasota County Law Library, created by County Ordinance #1972-053, is a private-purpose trust used to account for resources legally held in trust for the maintenance of the law library for use by individuals, private organizations and other governments. The Board of Trustees is responsible for the operations of the Law Library. Annually, the Board of County Commissioners appropriate the sum of money derived by the County from the occupational license tax on those persons licensed as members of the Florida bar residing in the County. It is presented as a blended component unit.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

The Sarasota Health Facilities Authority (the Authority) is a public instrumentality created June 21, 1977 by the Sarasota County Board of County Commissioners. The Authority exists to facilitate issuing tax-exempt debt for not-for-profit health care organizations. The Sarasota Health Facilities Authority is considered a blended component unit; it shares as a government body the Board of County Commissioners. The County has no responsibility for the debt issues approved by the Authority but there is a financial benefit or burden relationship.

The Sarasota Mental Health Care District was created on June 8, 2021 by the Sarasota County Board of Commissioners. The purpose of the Mental Health Care District is to provide resources, programs and facilities to the citizens of the county, devoted to improving the treatment of mental health as they relate to disorders surrounding substance abuse and mental illness.

Certain separate legal entities within the County are autonomous organizations with their own governmental powers and constituencies. These entities, which are not included in the financial statements, are as follows:

The Cities of Sarasota, Venice and North Port and the Town of Longboat Key - The Cities of Sarasota, Venice and North Port and the Town of Longboat Key are in the boundaries of Sarasota County. Each of these entities has a separately elected governing body, budgeting, accounting, and reporting requirements.

Sarasota County School Board - The School Board operates countywide and is completely separate and autonomous. It has five elected board members and a superintendent of schools. It operates under regulations prescribed by the State Board of Education and the Florida Statutes. It levies its own taxes and receives a large part of its income from the State of Florida.

Sarasota Memorial Hospital - Sarasota Memorial Hospital is an autonomous entity located within the boundaries of Sarasota County. It is operated by its own elected board and has its own taxing authority. It was created by a special act of the Florida Legislature.

B. BASIS OF PRESENTATION

The County's basic financial statements contain three components: government-wide financial statements, fund financial statements, and notes to the financial statements.

Government-Wide Financial Statements

The government-wide financial statements consist of a statement of net position and a statement of activities. These statements report all of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources, revenues, expenses, gains and losses on all of the nonfiduciary activities of the County, providing a consolidated financial picture of the government as a whole. In most cases, the effect of interfund activity has been removed from these statements.

Each statement distinguishes between activities that are supported primarily by taxes and intergovernmental revenues (governmental activities) and activities that are intended to recover all or most of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, physical environment, transportation, economic environment, human services, and culture and recreation. The business-type activities of the County include the Utility System, Solid Waste System, Stormwater Utility, and Transit.

The statement of net position reports all financial and capital resources and obligations of the County as a whole. The effects of fiduciary funds are not included as a part of this statement. The difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is reported as net position. The statement of activities presents information showing how the County's net position changed during the fiscal year. Further, this statement demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues.

Direct expenses are those that are clearly identifiable with a specific function or segment. The effect of administrative and support services' indirect expense allocations has been eliminated in the government-wide financial statements. Depreciation expense for capital assets that serve all functions is reported as a direct expense of the general government function on the government-wide statement of activities. All interest on

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

general long-term debt is considered indirect and is reported separately in the government-wide statement of activities.

Program revenues include 1) charges to customers or applicants for goods, services, or privileges provided and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

All taxes, and other items not properly included among program revenues, are reported as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

For identifying the function to which program revenue pertains, the determining factor for charges for services is the function that generates the revenue. For grants and contributions, the determining factor is the function to which the revenues are restricted.

Fund Financial Statements

The accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. Fund structures, where applicable, have been designed to comply with all requirements of the bond resolutions and regulatory provisions or administrative action. The operations of each fund are accounted for with a separate set of self-balancing accounts comprised of its assets, liabilities, equities, revenues, and expenditures, or expenses, as appropriate. The various funds are grouped into three categories: governmental funds, proprietary funds, and fiduciary funds. Separate financial statements are provided for each of these categories. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The remaining governmental funds are aggregated and reported as nonmajor funds.

Governmental Funds

Governmental Funds focus primarily on the sources, uses, and balances of current financial resources and often have a budgetary orientation. The governmental fund category includes the general fund, special revenue funds, debt service funds, capital project funds, and permanent funds. The County reports the following major governmental funds:

The **General Fund** is the general operating fund of the County. All general tax revenues and other receipts that are not required either legally or by generally accepted accounting principles to be accounted for in other funds are accounted for in the General Fund.

The **Emergency Services Special Revenue Fund** is used to account for the operations of fire and ambulance districts and the emergency 911 center. Revenue consists of assessments to property owners, service charges, and impact fees and is legally restricted to expenditures for the purpose of public safety.

The **Capital Revenue Programs Special Revenue Fund** is used to account for funds collected under the mobility fee, road, park, and library impact fee and infrastructure surtax ordinances. These funds are legally restricted to expenditures for the purpose of culture and recreation and related capital projects as specified in the ordinances.

The **Federal, State and Local Grants Fund** is used to account for receipt of federal, state and local grants restricted for specific purposes.

The **Infrastructure One Cent Sales Tax Capital Projects Fund** is used to account for proceeds of the one-cent voter-approved sales tax and are restricted for general government, road, and park projects.

The **Debt Proceeds Capital Projects Fund** is used to account for capital improvement projects that are financed by the issuance of general obligation or revenue bonds and are restricted for this specific purpose.

Nonmajor Governmental Funds are an aggregation of all nonmajor governmental funds.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

Proprietary Funds

Proprietary Funds focus on the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. The proprietary fund category includes enterprise and internal service funds.

Enterprise Funds may be used to account for any activity for which a fee is charged to external users for goods or services. Activities are required to be reported as enterprise funds if any one of the following criteria is met: (a) the activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity; (b) laws or regulations require that the activity's costs of providing services, including capital costs be recovered with fees and charges, rather than with taxes or similar revenues; or (c) the pricing policies of the activity establish fees and charges designated to recover its costs, including capital costs.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise and internal service funds are charges to customers for sales and services. These operating revenues are pledged for debt service bond covenants. The County also recognizes as operating revenue the portion of capacity fees intended to recover the cost of connecting new customers to the system. Operating expenses for the County's enterprise and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The County reports the following proprietary funds:

The **Utility System Fund** (a major fund) is used to account for the operations of the County's water, wastewater utility services, and all activities necessary to provide such services, including administration, operations, maintenance, financing, billing, and collection.

The **Solid Waste System Fund** (a major fund) is used to account for the County's solid waste disposal facilities and all activities necessary for the provision of this service.

The **Stormwater Utility Fund** (a major fund) is used to account for the operations of the County's Stormwater utility facilities and all activities necessary for the provision of this service.

The **Transit Fund** (a non-major fund) is used to account for the operations of the public transportation activities and all revenues, including state and federal grants, and all expenses related to the operation of these services.

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units, on a cost reimbursement basis. The County's internal service funds are: Fleet services, information technology, risk management, medical benefits, worker's compensation, public works, field and general services and Sheriff's insurance.

Additionally, the County reports the following fund types:

A **Permanent Fund** is utilized to account for permanent endowments established for the benefit of the County's library system. All principal is held in the permanent fund. Investment income is allocated to the specific endowments based on average cash balances and it is then transferred out for expenditure in accordance with laws, donor instructions, and County policy.

Fiduciary Funds are used to account for assets held in a trustee or custodial capacity for others and therefore cannot be used to support the County's own programs. The County utilizes a private-purpose trust fund to account for the receipt and expenditure transactions of the Sarasota County Law Library and utilizes custodial funds to account for abandoned property, bond money, and other resources held in a purely custodial capacity.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

The County reports the following trust funds:

Law Library Trust the County utilizes a private-purpose trust fund to account for the receipt and expenditure transactions of the Sarasota County Law Library.

OPEB Trust the County utilizes an employee benefit trust fund to account for investments and expenditures associated with the OPEB trust fund.

The County reports the following custodial funds:

The **Board Custodial Funds** are used to account for all assets held by the Board of County Commissioners as an agent for individuals, organizations, or other governments. These funds are: Abandoned property, cash performance and bid bonds and subdivision improvement bonds, held in a purely custodial capacity.

The **Clerk's Custodial Funds** are used to account for all assets held by the Clerk of the Circuit Court and County Comptroller as an agent for individuals, organizations, or other governments. These funds are: Fines and forfeitures, tax deeds application, support, Clerk's fees, documentary stamps, court registry, D.O.T. registry, B.C.C. registry, restitution, cash bonds, county court trust, circuit court trust, county witness, and state jury witness.

The **Sheriff's Custodial Funds** are used to account for all assets held by the Sheriff as an agent for individuals, organizations, or other governments. These funds are cash bond, individual depositors, suspense and prisoner.

The **Tax Collector Custodial Funds** are used to account for all assets held by the Tax Collector as an agent for individuals, organizations, or other governments. These funds are Tax Distribution and State Agency.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The accounting and financial reporting treatment is determined by the appropriate measurement focus and basis of accounting. The measurement focus indicates the type of resources being measured, such as current financial resources (current assets less current liabilities) or economic resources (all assets and liabilities). The basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. The basis of accounting relates to the timing of the measurements not the measurement focus applied.

The government-wide, proprietary fund and fiduciary trust fund financial statements are all reported using the economic resources measurement focus and the accrual basis of accounting. With the economic resources measurement focus, all assets and all liabilities associated with the operation of the fund are included on the balance sheet and operating statement and are presented as increases (i.e., revenues) or decreases (i.e., expenses) in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned and measurable and expenses are recognized in the period in which the related liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the County's water and wastewater function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned. The internal service activity has been eliminated on the government-wide financial statements. Internal service activity is reported in full on the proprietary fund financial statements, as aggregated into a single summary column.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Usually, this measurement focus only includes current assets and current liabilities on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available to finance expenditures of the fiscal period. The County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period (Emergency Medical Services receivables and grant receivables are considered available if collected within 9 months).

Primary revenue sources which have been treated as susceptible to accrual include, where material, charges for services, interest earnings and certain other revenues such as taxes and other intergovernmental revenues. Revenues not considered available are recorded as deferred inflows. Expenditures are generally accounted for under the modified accrual basis of accounting and recognized when the related liability is incurred. Typical exceptions include principal and interest on general long-term debt which is recognized when due and certain portions of compensated absences.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, followed by committed, assigned and unassigned resources as they are needed.

D. CASH AND INVESTMENTS

The County is authorized by County Ordinance No. 89-75, adopted September 5, 1989, to invest surplus funds in accordance with Florida Statute 125.31. On September 19, 1995, the investment policy was revised to conform to the newly adopted Florida Statute 218.415. On January 10, 2006, the policy was further revised to conform to County Ordinance No. 06-04. On September 9, 2008, the policy was further revised to conform to County Ordinance No. 08-111. On December 11, 2013, the policy was further revised to conform to County Ordinance No. 13-045, the policy was further revised on October 23, 2018 to conform to County Ordinance No. 18-045 and most recently further revised on September 12, 2023 to conform to County Resolution No. 2023-167.

In addition to the investment instruments described in F.S. 218.415 and other investment instruments constituting permitted investments under Florida law, this investment policy formally established guidelines and authorized the County to invest in the following:

- (1) The Local Government Surplus Funds, Trust Fund or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act of 1969, as provided in s. 163.01, Florida Statutes.
- (2) Securities and Exchange Commission registered money market funds invested in the investment securities authorized hereunder.
- (3) Interest-bearing time deposits or savings accounts in qualified public depositories as defined in s. 280.02, Florida Statutes.
- (4) Direct obligations of the United States Treasury.
- (5) Federal agencies and instrumentalities.
- (6) Securities of, or other interest in, any open-end or closed-end management-type investment company or investment trust registered under the Investment Company Act of 1940, 15 U.S.C. ss. 80a-1 et seq., as amended from time to time, provided that the portfolio of such investment company or investment trust is limited to investment securities authorized hereunder and to repurchase agreements fully collateralized by such investment securities, and provided that such investment company or investment trust takes delivery of such collateral either directly or through an authorized custodian.
- (7) Other investments authorized by law or by ordinance for a county or a municipality.
- (8) Obligations of the following Government Agencies and Government Sponsored Enterprises (GSEs), including but not limited to:

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

- a. Export-Import Bank of the United States.
- b. Federal Farm Credit Banks (FFCB).
- c. Federal Home Loan Bank (FHLB) or its banks.
- d. Federal Home Loan Mortgage Corporation (FHLMC).
- e. Federal National Mortgage Association (FNMA).
- f. Financing Corporation (FICO).
- g. Government National Mortgage Association (GNMA).
- h. Overseas Private Investment Corporation (OPIC).
- i. Private Export Funding Corporation (PEFCO).
- j. Resolution Funding Corporation (REFCORP).
- k. Student Loan Marketing Association (SLMA).
- l. Tennessee Valley Authority (TVA).
- m. United States Agency for International Development (USAID).

Permitted investments in the above listed agencies and instrumentalities shall include bonds, debentures, note or other evidence of indebtedness issued including mortgage pass-throughs, collateralized mortgage obligations, commercial mortgage backed securities, adjustable rate securities and adjustable rate mortgages.

- (9) Obligations guaranteed by the United States Government.
- (10) Commercial Paper, Notes and Bonds of U.S. Corporations.
- (11) Banker's Acceptances that are eligible for purchase by the Federal Reserve Banks.
- (12) State and Local obligations secured by taxes or essential services revenue, including those of Sarasota County.
- (13) Fixed Income Funds in open-end and no load fixed income mutual funds registered under the Investment Company Act of 1940.
- (14) Asset Backed Securities and Asset Backed Commercial Paper limited to traditional consumer receivables, such as auto, equipment, utility or credit card receivables.
- (15) Supranational Bonds that are U.S. dollar denominated, provided that the United States Government is the largest capital contributor.
- (16) Florida Municipal Investment Trust (FMIVT) fixed income portfolios with a modified duration of less than 5 years, administered by the Florida League of Cities.
- (17) The Florida Municipal Pension Trust Fund (FMPTF) administered by the Florida League of Cities, only applicable for Other Post Employment Benefit (OPEB) plan assets.
- (18) Repurchase Agreements (for purchase and subsequent sale) for any of the investments authorized hereunder.

All funds participate in the pooled cash and investment program. Investment income is allocated to individual funds based upon their average daily balance in the cash pool. Investment income earned in the utility debt service fund is deposited into the utility operating fund, pursuant to utility bond covenants. Each fund's individual equity in the County's investment pool is considered to be a cash equivalent, since the funds can deposit or effectively withdraw cash at any time without prior notice or penalty. This methodology is also used in the statement of cash flows for the Proprietary funds.

Investments in debt securities are recorded at fair value based upon quoted market prices. Money markets are recorded at amortized cost. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments or values obtained from independent pricing services. The County's policy for reporting particular investments at amortized cost applies only to investments held in external investment pools

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

which meet all of the specified criteria in Section 150: *Investments* of the GASB Codification to qualify to elect to measure the investments at amortized cost. The Florida Local Government Investment Trust Day to Day Fund (FLGIT), the Florida Fixed Income Trust Preferred Deposit Pool (FLFIT), Florida Safe Investment Pool (FLSAFE), Florida Public Asset for Liquidity Management Portfolio (FLPALM), Florida Cooperative Liquid Assets Securities System (FLCLASS) and Florida Fixed Income Trust – Preferred Deposit Pool (FL-FIT PDP) are external investment pools that target a stable Net Asset Value (NAV) of \$1 and the fair value of the County's positions is the same as the number of pool shares. Net realized and unrealized gains and losses on investments are reflected in the statement of activities; the statement of revenues, expenditures and changes in fund balances; and the statement of revenues, expenses and changes in fund net positions, as applicable.

The calculation of realized gains and losses is independent of the calculation of the net change in the fair value of investments. Realized gains and losses are netted for financial statement presentation purposes. Realized gains and losses on investments that are held in more than one fiscal year are included as a change in the fair value of investments reported in the prior year(s) and the current fiscal year.

FLGIT, FLFIT, FLSAFE, FLPALM and FLCLASS are public entities created via a trust indenture, organized under the laws of the State of Florida, and reviewed monthly by a National Recognized Statistical Rating Organization (NRSRO) such as S&P Global Ratings or Fitch Ratings' Agency. FLGIT, FLFIT, FLSAFE, FLPALM and FLCLASS, as governed by their Board of Trustees, report all share information at net asset value and reflect fair value accounting in accordance with GASB No. 31, as amended. Each of these trusts are intergovernmental investment pools authorized pursuant to the Florida Interlocal Cooperation Act of 1969.

E. RECEIVABLES

All trade receivables are reported net of an allowance for uncollectible accounts, which is generally equivalent to the receivables that are over 90 days past due.

F. INTERFUND BALANCES

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either due to/from other funds or advances to/from other funds.

G. INVENTORIES

Inventories are valued at cost, using the average cost assumption method. Inventories in the special revenue funds, consisting of expendable supplies, are recorded as expenditures as they are used (i.e., the consumption method). Governmental Fund inventories are classified as non-spendable fund balance, which indicates that the fund balance is not in spendable form.

H. RESTRICTED ASSETS

The following items are classified as restricted assets on the statement of net position because their use is limited by applicable bond covenants or state regulation: Select proceeds of the County's enterprise fund revenue bonds and related resources are set aside for their repayment; funds are set aside per state regulation for landfill closure and post-closure costs. In addition, capacity fee revenues, special assessment capital improvement revenues and customer deposits are set aside to be used for their respective purposes in accordance with related state statutes, regulations and County ordinances.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

I. CAPITAL ASSETS

Capital assets, which include property, plant, equipment, and infrastructure (e.g., roads, bridges, wastewater, water, drainage systems, and similar items), are reported in the proprietary fund financial statements, and in the applicable governmental or business-type activities columns in the government-wide financial statements. Software, easements, patents, copyrights, water, timber and land rights are reported as intangible assets.

Assets are recorded at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are reported at their acquisition value. Betterments and major improvements which significantly increase values, change capacities, or extend useful lives are capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Amounts expended for maintenance and repairs are charged to expenditures/expenses as incurred. Upon sale or retirement of capital assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations. Property, plant and equipment of the County are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>	<u>Capitalization Threshold</u>
Buildings & building improvements	10-40 years	Capitalize all
Infrastructure: General Govt/Enterprise	10-50 years	\$1,000,000/\$50,000
Equipment: All other	3-10 years	Per FL Statute 274.02
Intangible Assets:		
Patents, copyrights, trademarks	10-50 years	\$150,000
Water, and timber use rights	10-50 years	\$150,000
Software	3-10 years	\$150,000
Right-to-use lease assets	3-10 years	\$5,000
SBITA	3-10 years	\$150,000

Information regarding assets is included in Note 6 to the financial statements.

J. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This represents a consumption of net assets that applies to a future periods and so will not be recognized as an outflow of resources (expense/ expenditure) until then. For the County, three types of items qualify for reporting in this category. The first type is a deferred loss on debt refunding reported in the proprietary and the government-wide statements of net position. A deferred loss on debt refunding occurs when the debt reacquisition price is greater than the carrying value of refunded debt. The deferred loss is amortized over the shorter of the life of the refunded or refunding debt. The second type is a deferred charge that represents changes in actuarial assumptions, the net difference between projected and actual earnings on pension plan investments, changes in the proportion and differences between the County's contributions and proportionate share of contributions, and the County's contributions subsequent to the measurement date, relating to the Florida Retirement System Pension Plan and the Retiree Health Insurance Subsidy Program. These amounts will be recognized as increases in pension expense in future years. The third type is a deferred charge that represents certain changes in the collective net other postemployment benefits (OPEB) liability or collective total OPEB liability. These amounts will be recognized as an increase in OPEB expense in future years.

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. This represents an acquisition of net assets that applies to a future periods and so will not be recognized as an inflow of resources (revenue) until that time. For the County, six types of items qualify for reporting in this category. The first type is taxes received in advance that are reported in the governmental funds balance sheet and the government-wide statement of net position and result from estimated property taxes and non-ad valorem assessments that are collected in quarterly installments. These amounts are deferred and recognized as an

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

inflow of resources in the period that the amounts become available. The second type is a deferred gain on debt refunding reported in the proprietary and the government-wide statements of net position. A deferred gain on debt refunding occurs when the debt reacquisition price is lesser than the carrying value of refunded debt. The deferred gain is amortized over the shorter of the life of the refunded or refunding debt. The third type represents the difference between expected and actual economic experience, the net difference between projected and actual earnings on Florida Retirement System Pension Investments, and changes in the proportion and differences between the County's contributions and proportionate share of contributions relating to the Florida Retirement System Pension Plan and the Retiree Health Insurance Subsidy Program. These amounts will be recognized as reductions in pension expense in future years. The fourth type is a deferred charge that represents certain changes in the collective net OPEB liability or collective total OPEB liability. These amounts will be recognized as a decrease in OPEB expense in future years. The fifth type is a deferred amount related to leases. These amounts will be collected in future years for executed contracts for leased assets the County owns. The sixth type is unavailable revenues, these amounts are related to FEMA contracts that do not have approved project worksheets as of the close of the reporting date.

K. COMPENSATED ABSENCES

County policy permits employees to accumulate a limited amount of annual leave, which will be paid to employees upon termination of employment. Accumulated annual leave, and certain other salary-related costs associated with the payment of annual leave, is accrued when incurred in the government-wide and proprietary financial statements. A liability for these amounts is reported in governmental funds to the extent that such amounts have matured, payment is probable, and would normally be liquidated with expendable available financial resources.

L. INTERFUND ACTIVITY

Interfund activities are reflected as services provided, reimbursements, or transfers. Services provided, deemed to be at or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund activities are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide presentation.

M. LONG-TERM OBLIGATIONS

Long-term debt and other long-term obligations are reported as liabilities in the proprietary fund financial statements and in the applicable governmental or business-type activities columns in the government-wide financial statements. Such obligations are recognized as a liability in the governmental funds financial statements only when due, or when resources have been accumulated in debt service funds for payment early in the following year.

N. BOND PREMIUMS, DISCOUNTS, LOSS ON DEFEASANCE, AND ISSUANCE COSTS

In the proprietary fund financial statements and in the applicable governmental or business-type activities columns in the government-wide financial statements, bond premiums and discounts, as well as bond insurance costs are deferred and amortized over the life of the bonds using the bonds-outstanding method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Debt issuance costs are expensed in the current period, except for bond insurance costs which are reported as unamortized bond insurance costs and amortized over the term of the related debt.

The gain or loss on defeasance of debt is reported as a deferred inflow or outflow of resources. The gain or loss is calculated as the difference between the reacquisition price of the refunded debt and the net carrying amount at the time of the refunding. This gain or loss is amortized over the life of the old debt or the life of the new debt, whichever is shorter.

In the governmental fund financial statements, bond premiums and discounts, as well as issuance costs, are recognized in the current period.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

O. ENCUMBRANCES

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded as reservations of budget, is employed as an extension of the statutory required budgetary process. At year-end, outstanding encumbrances represent material purchase commitments for goods and services which were ordered, budgeted, and appropriated but which had not been received or completed at that date. Although encumbrances lapse at year-end, it is the County's intention to substantially honor these encumbrances under authority provided in the subsequent year's budget. Refer to Note 6C for Governmental and Business-type Activities capital commitments.

The County has the following significant encumbrances as of September 30, 2023:

	Encumbrance
Governmental Activities:	
General Fund	\$ 4,587,109
Federal, State & Local Grants	37,104,389
Emergency Services Special Revenue	974,443
Nonmajor Governmental Funds	29,496,441
Total Governmental Activities	\$ 72,162,382
 Business-type Activities:	
Utility System	\$ 5,546,208
Solid Waste System	2,734,654
Stormwater Utility	1,523,787
Transportation Authority	1,266,537
Total Business-type Activities	\$ 11,071,186

P. ENDOWMENTS

Two donor-restricted and eight designated endowments have been established for the benefit of the County's library system. Such endowments are reported in the financial statements as a nonmajor governmental fund, or more specifically, a permanent fund type. Florida Statute 738.401 classifies net appreciation on endowments as income, rather than principal, and is hence legally available for spending; however, it is the policy of the County not to appropriate appreciation on investments. One hundred percent of other investment income is appropriated in a special revenue fund and expended for purposes as specified by donors.

Q. NET POSITION / FUND BALANCES

The government-wide and proprietary fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted net position, or unrestricted net position.

Net Investment in Capital Assets - This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation, liabilities, and the outstanding balances of debt attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

Restricted Net Position - This category presents external restrictions imposed by creditors, grantors, contributors, or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

At year-end, governmental activities net position restricted for other purposes was composed of amounts related to the OPEB asset, transportation programs, environmentally sensitive land programs and the permanent endowment fund. Business-type activities' net position restricted for other purposes was composed of amounts related to debt service funds.

Unrestricted Net Position - This category represents net position that does not meet the definition of "net investment in capital assets" or "restricted." In the governmental fund financial statements, financial reserves are classified by components of fund balance.

Fund Balances - This category represents the Contingency/Emergency/Disaster Relief Reserves that are to be used to ensure the maintenance of services to the public during non-routine and unforeseen disaster situations such as hurricanes and other weather-related events, as well as other environmental or natural disasters that cause disruptions in public services as declared appropriate by the Commissioners. These reserves are reported in the governmental fund financial statements as committed fund balance. Classifications of fund balance are established by the Sarasota County Board of County Commissioners Financial Reserves Policy, Resolution 2022-198 and the senior management team, and may be classified as committed or assigned. These tentative plans for expenditures can be increased, reduced or eliminated by similar actions.

Recovery of the Contingency/Emergency/Disaster Relief Reserve after drawdown will be examined on an annual basis to determine the need for increases in fees/taxes or expenditure reductions to ensure the funds are replenished.

Budget Stabilization and Economic Uncertainty Reserves are to be used for short-term cash flow purposes, unanticipated expenditures of a non-recurring nature, to meet unexpected immediate increases in service delivery costs, or to maintain service levels in the event that an economic downturn should cause a shortfall in revenues. These reserves are reported in the governmental fund financial statements as unassigned fund balance. See Note 1X - Governmental Fund Balances for additional information.

R. REVENUES

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if collected within 60 days of the end of the current fiscal period, with the exception of EMS receivables and grant receivables which are 9 months.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenue in the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the County.

S. PROPERTY TAXES

Taxes in Sarasota County are levied by the Board. The millage levies are determined on the basis of estimates of revenue needs and the total taxable valuations within the jurisdiction of the Board. As specified in Florida Statute 200.071, no aggregate ad valorem tax millage in excess of 10 mills on the dollar is levied against real or tangible property in the County, except for voted levies.

Each year the total taxable property valuation is established by the Sarasota County Property Appraiser, and the list of property assessments is submitted to the State Department of Revenue for approval. Taxes assessed as of

**Sarasota County, Florida
Notes to Financial Statements
September 30, 2023**

January 1 of each year, are due and payable on November 1 of each year or as soon thereafter as the assessment roll is opened for collection. Pursuant to Florida law, all owners of property have the responsibility of ascertaining the amount due and paying it before April 1 of the year following the year in which the tax was assessed.

The County assesses properties, bills for and collects property taxes as follows:

Lien date	- June 1
Levy date	- November 1
Tax bills mailed	- November 1
Collection dates	- 4% discount if paid in November - 3% discount if paid in December - 2% discount if paid in January - 1% discount if paid in February
Due date	- Before April 1
Tax certificate sale for delinquent property taxes	- June 1

T. ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

U. PENSIONS

In the government-wide and proprietary funds statements of net position, liabilities are recognized for the County's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan, the Health Insurance Subsidy (HIS) and the City of Sarasota Firefighters' Pension plan must be calculated. Moreover, additions/deductions from the FRS, HIS and Firefighters' Pension plans' fiduciary net position are determined on the same basis as they are reported by each plan. Plan contributions are recognized on the employer's payroll dates, while the benefit payments and refund of employees' contributions are recognized when due and payable in accordance with the benefit terms. Each plan's investments are reported at fair value.

V. LEASES

Lease contracts that provide the county with control of a non-financial asset, such as land, buildings or equipment, for a period in excess of twelve months are recognized as a leased asset with a related lease liability. The lease liability is recorded at the present value of future lease payments, including fixed payments, variable payments based on an index or fixed rate and reasonably certain residual guarantees. The intangible leased asset is recorded for the same amount as the related lease liability plus any prepayments and initial direct costs to place the asset in service. Leased assets are amortized over the shorter of the useful life of the asset or the lease term. The lease liability is reduced by the lease payments made, less the interest portion of the lease payment.

Lease contracts that allow the County to lease any type of right-to-use asset at any given rate for a stated period are reported as accounts and lease receivables. These receivables have a corresponding anticipated future revenue that has yet to be recognized.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

W. SUBSCRIPTION-BASED IT ARRANGEMENTS (SBITA)

The County has entered into various SBITA agreements, primarily for Software as a Service (SaaS). SBITA is defined as a contract that transfers the right to use another entity's subscription asset for a specific period of time in an exchange or exchange-like transaction. Under these contracts, the County recognizes a SBITA liability and an intangible SBITA asset at the commencement of the SBITA term in the government-wide financial statements or Proprietary Funds' Statement of Net Position. The SBITA liability is measured at the present value of payments expected to be made during the SBITA term. The SBITA asset is measured at the amount of the initial measurement of the SBITA liability. The future SBITA payments are discounted using the interest rate implicit in the SBITA contract. If the interest rate is not available, the County uses its incremental borrowing rate.

X. IMPLEMENTATION OF GOVERNMENTAL ACCOUNTING STANDARDS STATEMENTS

The County implemented the following GASB Statements during the fiscal year ended September 30, 2023:

- (1) Statement No. 91, "Conduit Debt Obligations", provides a single method of reporting Conduit Debt Obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This statement was fully implemented for fiscal year 2023.
- (2) Statement No. 94, "Public-Private and Public-Public Partnerships and Availability Payment Arrangements", objective is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). This statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). Uniform guidance will provide more relevant and reliable information for financial statement users and create greater consistency in practice. This statement was fully implemented for fiscal year 2023 with no impact to the County's financial statements.
- (3) Statement No. 96, "Subscription-Based Information Technology Arrangements", establishes uniform accounting and financial reporting requirements for SBITA's; improves the comparability of government's financial statements, and enhances the understandability, reliability, relevance, and consistency of information about SBITA's. This statement was fully implemented for fiscal year 2023.

Y. FUND BALANCE REPORTING AND GOVERNMENTAL FUND-TYPE DEFINITIONS

Fund Balances are limited to the governmental funds and are reported in the Governmental fund financial statements in the following classifications:

Non Spendable Fund Balance - Amounts that are (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance - Amounts that can be spent only for specific purposes stipulated by (a) external resource providers such as creditors (by debt covenants), grantors, contributors, or laws and regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance - Amounts that can be used only for the specific purposes determined by a formal action of the Commissioners, the County's highest level of decision making authority, with formal action occurring prior to fiscal year-end. Commitments may be changed or lifted only by the Commissioners taking the same formal action (resolution) that imposed the constraint originally.

Assigned Fund Balance - Includes spendable fund balance amounts, pursuant to the Financial Reserves Policy Resolution 2022-198, established by the Chief Financial Management Officer or their designee that are intended to be used for specific purposes that are neither considered restricted or committed.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

Unassigned Fund Balance - Represents the residual surplus fund balance in the general fund in excess of the four components described above (nonspendable, restricted, committed, or assigned balances). Governmental funds, aside from the general fund, are not permitted to carry a positive unassigned fund balance, but may include a deficit balance for situations in which expenditures exceed non spendable, restricted, committed, or assigned fund balances for those specific purposes.

The County spends restricted amounts first, when both restricted and unrestricted fund balances are available, unless prohibited by legal documents, grant agreements or contracts. Additionally, the County uses committed fund balance, followed by assigned fund balance and then unassigned fund balance when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

The statutory procedures followed by the Board of County Commissioners (the Commissioners) in establishing the budgets for the County are as follows:

- (1) Within 15 days after certification of the ad valorem tax roll by the Property Appraiser, the County Budget Officer prepares and presents to the Commissioners a tentative budget for the ensuing fiscal year. The budget includes all estimated receipts, taxes to be brought forward, and all estimated appropriations, reserves and balances to be carried forward at the end of the year as specified in Section 129.03, Florida Statutes.
- (2) Within 80 days of the certification of value, but not earlier than 65 days after certification, the Commissioners hold a public hearing on the tentative budget and proposed millage rate. At this hearing, the Commissioners amend and adopt the tentative budget, re-compute the proposed millage rate, and announce publicly the percentage, if any, by which the recomputed proposed millage rate exceeds the rolled-back rate. If the millage rate tentatively adopted exceeds that proposed, each taxpayer within the jurisdiction is notified of the increase by first class mail, at the expense of the Commission.
- (3) Within 15 days of the meeting adopting the tentative budget, the Commissioners advertise the County's intent to adopt a final budget and millage rate.
- (4) A public hearing is held by the Commissioners to finalize the budget and adopt a millage rate. This hearing is held not less than two days or more than five days after the day that the advertisement is first published. The adoption of the final budget, prior to September 30, and millage levy are by separate votes, and in no event is the millage rate adopted allowed to exceed the tentatively adopted millage rate.
- (5) The resolution approved at the final hearing is forwarded to the Property Appraiser, Tax Collector, and Florida Department of Revenue; no later than 30 days following the adoption of the Resolution the Commissioners certify to the State of Florida, Department of Revenue, and Division of Ad Valorem Tax that it has complied with the provisions of Chapter 200, Florida Statutes.
- (6) During the ensuing fiscal year, the County Budget Officer acts on intradepartmental budget changes that do not alter the total revenue or expenditures of the lower of department or fund level. All other budgetary changes are acted on by the Commissioners in open session. The budgetary data presented herein was amended by the Commissioners during the year in accordance with Florida Statutes.
- (7) Section 129.07, Florida Statutes, as amended in 1978, provides that only expenditures in excess of total fund budgets are unlawful.
- (8) Formal budgetary integration is employed as the legal authority for expenditures and as a management control device during the fiscal year for all fund types. Budget to actual amounts are required to be reported for only the general, special revenue, debt service, and permanent funds. The Sheriff, Supervisor of Elections, and Clerk of the Circuit Court and County Comptroller (to the extent of her function as Comptroller and Ex-Officio Clerk to the Board and any amounts above the fee structure as Clerk of the Circuit Court) prepare budgets for their General Fund, which are submitted to, and approved by the Board, and are included in the General Fund and the General Fund Budget to Actual Statement. The budget for the Clerk and Comptroller's special revenue funds is subject to a "non-appropriated budget" review and approval process, which is outside the Board's normal "appropriated budget" process. The budget for the Sheriff's special revenue funds is excluded from such reporting, as they do not have a legally adopted budget.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

- (9) All legally adopted budgets are on a basis consistent with GAAP. Because capital projects funds' budgets are prepared for the project life rather than for the standard current fiscal year, project appropriations for these budgets lapse at the conclusion of the project. All other appropriations lapse at the end of the current fiscal year.

NOTE 3. CASH AND INVESTMENTS

The County's investments are measured and reported at fair value using guidelines established by Generally Accepted Accounting Principles. These guidelines recognize a three-tiered hierarchy as follows:

Level 1 – Investments reflect unadjusted quoted prices in active markets for identical assets.

Level 2 – Investments reflect prices that are based on inputs that are either directly or indirectly observable for an asset (including quoted prices for similar assets), which may include inputs in markets that are not considered to be active. All level 2 prices are provided by an independent third party custodian that utilizes matrix pricing.

Level 3 – Investments reflect prices based upon unobservable inputs for an asset.

The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and should not be perceived as the particular investment's risk.

"NAV" - Investments in FLFIT Preferred Deposit Pool, FLSAFE Stable NAV, FLGIT Day to Day, FLPALM, and FLCLASS Stable NAV fund represent \$173,364,569 - in pooled investment programs. No specific investments are assigned to the County, rather the value of the County's investment is equal to the total fund net asset value times the County's units as a percentage of total units outstanding. Any dividends or interest of the programs are paid out in shares and are reinvested. In addition, the County may redeem either a portion of or its entire investment at any time in the program.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. While the County believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

FLPALM, FLCLASS, FLSAFE and FLGIT hold a diversified mix of credit sectors for income generation. The funds also maintained a small to moderate allocation to A1 rated equivalent asset-backed securities (ABS/MBS) with short duration profiles for their yield and diversification benefits.

FLFIT Preferred Deposit Pool (PDP) consists of Qualified Public Deposits, FDIC Insure Deposits and Government Money Market Funds. The fund's investment objective is to provide current income consistent with stability of principal and maintain a net asset value of \$1.00 per Share. While no assurance can be given that the portfolio

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

will achieve its objective, the Advisor will endeavor to do so by following the procedures described in the investment policy statement. Same day liquidity for transactions entered by 2:00 p.m. EST.

FLGIT Day to Day investment pool is AAmmf rated by Fitch Ratings and is structured to maintain liquidity, safety of principal, and maximize available yield through a balance of quality and diversification. Invests primarily in Repurchase Agreements, U.S. Treasuries, Mortgages, Commercial Paper, Government Related Securities, Asset-Backed Securities rated AAA or A-1, and Corporate Bonds rated A or better by Fitch Ratings. Stable Net Asset Value (NAV) with the investment objective of maintaining a \$1.00 per share NAV. Same day liquidity for transactions entered by 11:00 a.m. EST.

FLSAFE Stable NAV investment pool, AAAM rating from S&P, will invest solely in permitted investments in such a manner as to result in an average dollar weighted maturity of reset for the portfolio of no greater than sixty days and an average dollar weighted maturity of final maturity for the portfolio of no greater than ninety days (with certain extensions). The permitted Investments in which the Stable Value Fund invests are selected by the Funds' investment advisor, PMA Asset Management, LLC and consistent of money market instruments having a maximum maturity of 397 days except for certain floating rate government securities. Same day liquidity for transactions entered by 1:00 p.m. EST.

FLPALM Portfolio has a credit rating of AAAM by S&P. The Portfolio will be managed to ensure that it will meet all the necessary requirements to maintain a AAAM rating by Standard & Poor's ("S&P"). The AAAM rating is based on analysis of credit quality, market price exposure and management. According to S&P rating criteria, the AAAM rating signifies excellent safety of invested principal and a superior capacity to maintain a \$1.00 per share net asset value. Same day liquidity for transactions entered by 2:00 p.m. EST.

FLCLASS is rated AAAM by S&P Global Ratings Services, the highest rating assigned to principal stability government investment pools. This rating reflects the conservative nature of the pool's investments as well as the excellent credit quality of the program. S&P Global Ratings monitors the pool on a weekly basis. The Board of Trustees has appointed Public Trust Advisors, LLC, to serve as the Investment Advisor and Administrator of the Program and has appointed Wells Fargo Bank, N.A. as the Custodian. Same day liquidity for transactions entered by 3:00 p.m. EST.

Qualifying Investment Pools

If a participant has an investment in a qualifying external investment pool that measures for financial reporting purposes all of its investments at amortized cost, it should disclose the presence of any limitations or restrictions on withdrawals (such as redemption notice periods, maximum transaction amounts, and the qualifying external investment pool's authority to impose liquidity fees or redemption gates) in notes to the financial statements.

With regard to redemption gates, Chapter 218.409(8) (a), Florida Statutes, states that "The principal, and any part thereof, of each account constituting the trust fund is subject to payment at any time from the moneys in the trust fund. However, the Executive Director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust fund, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the Board can invest moneys entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the Trustees, the Joint Legislative Auditing Committee, the Investment Advisory Council, and the Participant Local Government Advisory Council. The Trustees shall convene an emergency meeting as soon as practicable from the time the Executive Director has instituted such measures and review the necessity of those measures.

If the Trustees are unable to convene an emergency meeting before the expiration of the 48-hour moratorium on contributions and withdrawals, the moratorium may be extended by the Executive Director until the Trustees are able to meet to review the necessity for the moratorium. If the Trustees agree with such measures, the Trustees shall vote to continue the measures for up to an additional 15 days. The Trustees must convene and vote to continue any such measures before the expiration of the time limit set, but in no case may the time limit set by the Trustees exceed 15 days."

As of September 30, 2023, there were no redemption fees or maximum transaction amounts, or any other requirements that serve to limit a participant's daily access to 100 percent of their account value.

Custodial Credit Risk

Custodial credit risk is defined as the risk that, in the event of failure of the counterparty, the County will not be able to recover the value of its securities that are in the possession of an outside party. At September 30, 2023, the County's book balance of cash was \$123,223,043 and the bank balance was \$123,727,553. The County's bank balances are insured by the Federal Deposit Insurance Corporation (FDIC) in the amount of \$250,000 for each banking relationship. The remaining balances are collateralized pursuant to Chapter 280, Florida Statutes. The County's investment policy requires that deposits be entirely covered by federal depository insurance or by collateral pledged with the State Treasurer pursuant to Chapter 280, Florida Statutes. Under this Chapter, in the event of default by a participating financial institution (a qualified public depository), all participating institutions are obligated to reimburse the governmental entity for the loss.

The County's investment policy requires that securities be secured through third-party custody in the County's name and safekeeping procedures. All of the County's investments are held by the counterparty's trust department in the County's name.

Interest Rate Risk

As of September 30, 2023, the County had the following investments and maturities:

Investment Type	Cost or Fair Value	Investment Maturities (in Years)		
		<1	1-5	Greater than 5*
U.S. Treasuries	\$ 133,767,040	\$ 69,371,499	\$ 64,395,541	\$ -
U.S. Agencies				
Fixed Debt	758,386,042	406,497,818	351,888,224	-
Adjustable Debt	100,994,443	-	100,994,443	-
Adjustable Mortgages*	13,218,907	-	-	13,218,907
Fixed Mortgages **	73,955,410	124,203	2,582,953.81	71,248,253
GNMA Mortgages				
Adjustable*	37,144,898	-	-	37,144,898
Fixed Mortgages **	45,939,901	-	-	45,939,901
FLFIT	39,377	39,377	-	-
FLSAFE	10	10	-	-
FLGIT	557,304	557,304	-	-
FLPALM	114,933,204	114,933,204	-	-
FLCLASS	57,834,673	57,834,673	-	-
Short-term cash	11,880,404	11,880,404	-	-
Total	\$ 1,348,651,614	\$ 661,238,493	\$ 519,861,162	\$ 167,551,960

*Adjustable U.S. Agency and GNMA mortgages have interest rate caps and floors with coupon resets on a monthly basis. As interest rates change, these securities adjust their coupons monthly. As a result, the bonds have effective durations corresponding to their reset frequencies. Weighted average effective duration of these securities contributes 0.05 years to the portfolio's effective duration of 1.22.

**Represents fixed rate mortgages that also pay principal and interest monthly and contribute 0.31 years to the effective duration of the portfolio.

The County limits interest rate risk by maintaining an investment portfolio with limited volatility. The policy states that no security shall be purchased having an estimated average return of principal exceeding five years, unless the investment is an adjustable rate security. Adjustable rate securities may have a final return of principal in up to 30 years.

In accordance with the County's investment policy, the County invests in government agency mortgage backed securities and other similar investments. In management's opinion, the credit and legal risk associated with these investments is comparable to other investments within the portfolio. The collateralized mortgage backed securities are based on cash flows from the underlying government agency guaranteed mortgages. The principal repayment portions could be sensitive to prepayment by mortgagees, which may be affected by interest rate changes. The prepayments and anticipated interest rate changes can therefore affect the fair values of the investments.

Credit Risk

The County's investment policy limits credit risk by restricting the authorized investments to those illustrated in Note 1, Section D. The following table illustrates the credit quality distribution with credit exposure as a percentage of the County's investment securities.

<u>Investment Type</u>	<u>Credit Ratings S&P/Moody's/Fitch</u>	<u>Percent of Portfolio</u>
U.S. Treasury	AA+/Aaa/AA+	9.9%
GNMA *	AA+/Aaa/AA+	6.2%

Short-term Cash***	-	0.9%

* GNMA is backed by the full faith of the U.S. Government.

** Non-Negotiable with a FL Qualified Public Depository

***Qualified Public Funds bank money market

Concentration of Credit Risk

The County's investment policy establishes limitations on portfolio composition, both by investment type and dealer, in order to control concentration of credit risk. The following maximum limits are guidelines established for diversification by instrument

<u>Sector</u>	<u>Investment Policy Limit</u>
Repurchase Agreements	50%
Certificates of Deposits	80%
U.S. Agencies	75%
State Investment Pools	50%
Commercial Paper	25%
Bankers' Acceptances	25%

The policy provides that no more than 25% of the entire portfolio may be placed with any one security dealer or bank.

Other Post Employment Trust Fund Deposit and Investments

The County participates in the Florida Municipal Pension Trust Fund which invests assets in the Florida Municipal Investment Trust (FMIvT). The FMIvT is a Local Government Investment Pool (LGIP) administered by the Florida League of Cities for the Other Post Employment Benefit Plan. The FMIvT is an interlocal government entity and authorized investment under Section 163.01, Florida Statutes used to invest surplus and pension funds. The FMIvT is governed by a Board of Trustees consisting of the president and second vice president of the Florida League of Cities, two representatives who are appointed from the Florida Municipal Insurance Trust and up to three members who are elected officials of governmental entities actively participating in the FMIvT.

Credit Risk

Credit risk exists when there is a possibility the issuer, or other counterparty to an investment, may be unable to fulfill its obligations. GASB No. 40 requires disclosure of credit quality ratings for investments in debt securities as well as investments in external investment pools, money market funds, and other pooled investments of fixed-income securities. Credit Risk for FMIvT Funds in the portfolio is as follows:

Credit Risk for FMIvT Funds	
<u>Asset Class</u>	<u>Fitch Rating</u>
FMIvT Broad Market High Quality Bond Fund	AAf/S4
FMIvT Core Plus Fixed Income Fund	Not Rated

Concentration of Credit Risk

The County's investment policy establishes limitations on portfolio composition, both by investment type and dealer, in order to control concentration risk. The following maximum limits are guidelines established for diversification by market sector:

Equities	50%
Fixed Income	40%
Real Estate	10%

A variance of more than 10% from the approved allocation percentages of any asset class requires approval by the Master Trustees.

The following table reflects the government trustee's investment deposits, level of investment in each market sector, and investment by sector as a percentage of total investment:

<u>Asset Class</u>	<u>Portfolio Allocation</u>	<u>Amount in Trust as of September 30, 2023</u>
Cash	0.2%	\$ 13,229
Broad Market High Quality Bonds	19.7%	1,303,057
Core Plus Fixed Income	19.4%	1,283,214
Diversified Large Cap	23.3%	1,541,181
Diversified Small to Mid Cap	6.4%	423,328
International Equity	16.9%	1,117,851
Core Real Estate	14.1%	932,645
	100.0%	\$ 6,614,505

Custodial Credit Risk

GASB No. 40 modifies the existing GASB No. 3 custodial credit risk reporting requirements. Under GASB No. 3, governments had to categorize their investments into one of three custodial credit risk categories. This is no longer required. Participants' investments in the FMIvT are evidenced by shares of the pool, not the securities that make up the pool.

Interest Rate Risk

Interest rate risk exists when there is a possibility that changes in interest rates could adversely affect an investment's fair value. GASB No. 40 requires that interest rate risk be disclosed using one of the five approved methods. The five methods are: segmented time distribution, specific identification, weighted average maturity (WAM), duration, and simulation model. Different methods may be presented for different types of investments.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

Interest rate risk disclosures are required for all debt investments as well as investments in mutual funds, external investment pools, and other pooled investments that do not meet the definition of an external investment pool set forth in GASB No. 79.

<u>Fixed Income Fund</u>	<u>FMIvT Interest Rate Risk in Years</u>	<u>Modified Duration</u>	<u>WAM</u>
FMIvT Broad Market High Quality Bond Fund		5.58	6.90
FMIvT Core Plus Fixed Income Fund		6.80	8.03

Fair Value Measurement

The County and the OPEB trust fund categorize fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Investments are reported at fair value other than those using Net Asset Value (“NAV”) or amortized cost. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determination, other than those measured using the NAV as a practical expedient, are made based upon a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Level 1 – Inputs are directly observable, quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs are derived from or corroborated by observable market data through correlation or by other means.

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability, and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk. These inputs are used only when relevant Level 1 and Level 2 inputs are unavailable

The OPEB trust fund had the following recurring fair value measurements comprised of investments as of September 30, 2023:

<u>Investments by Fair Value Level</u>	<u>Total Fair Value</u> <u>9/30/2023</u>	<u>Quoted Prices in</u> <u>Active Markets</u> <u>for Identical</u> <u>Assets (Level 1)</u>	<u>Significant Other</u> <u>Observable</u> <u>Inputs (Level 2)</u>	<u>Significant</u> <u>Unobservable</u> <u>Inputs (Level 3)</u>
External Investment Pool				
FMIvT Funds:				
Broad Market High Quality Bonds	\$ 1,303,057	\$ -	\$ 1,303,057	\$ -
Core Plus Fixed Income	1,283,214	-	1,283,214	-
Diversified Large Cap	1,541,181	-	1,541,181	-
Diversified Small to Mid Cap	423,328	-	423,328	-
International Equity	1,117,851	-	1,117,851	-
Core Real Estate	932,645	-	-	932,645
Total Investments by Fair Value Level	\$ 6,601,276	\$ -	\$ 5,668,631	932,645
 Investments at Amortized Cost				
Cash & Cash Equivalents	\$ 13,229			
Total Investments at Cost	\$ 13,229			
 Grand Total Cash & Investments	 \$ 6,614,505			

The fair values of the commingled equity and bond funds have been determined using the NAV per share or its equivalent of the investments as provided by the FMIvT administrator.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

FMIvT Broad Market High Quality Bond Fund

This fund invests mainly in US government and agency securities, asset-backed securities and corporate bonds and notes. The underlying securities have observable level 1 quoted pricing inputs or observable level 2 significant other observable pricing inputs. Most of the security prices were obtained from a pricing service, Interactive Data Corporation (IDC). While the underlying asset values are based on quoted prices or market- corroborated inputs, the net asset value of the portfolio is not publicly quoted. Members should consider reporting these shares as level 2, since the value is based on market-corroborated data.

FMIvT Core Plus Fixed Income Fund

This fund invests in two underlying funds, the Franklin Templeton Global Multi-Sector Plus Fund, LP and the Pioneer Institutional Multi-Sector Fixed Income Portfolio, LLC. Shares of these funds are not publicly quoted. These underlying funds invest in a variety of financial instruments, including equity investments, asset-backed securities, debt securities, swaps, forward exchange contracts, credit-linked notes, escrow accounts and litigation trusts for both U.S. and foreign companies and governments.

FMIvT Diversified Large Cap Equity Portfolio

This portfolio invests mainly in domestic stocks and in a single underlying fund, the Intech U.S. Broad Enhanced Plus Fund, LLC (Intech Fund), shares of which are not publicly quoted. The majority of the underlying securities have observable level 1 quoted pricing inputs. Most of the security prices were obtained from a pricing service, Interactive Data Corporation (IDC). The value of the portfolio's shares of the Intech Fund investment is determined based on the net asset value provided by the Intech Fund, which was calculated in accordance with generally accepted accounting principles. While most of the underlying asset values are based on quoted market prices, the net asset value of the portfolio is not publicly quoted. Members should consider reporting these shares as level 2, since the value is based on market-corroborated data.

FMIvT Diversified Small to Mid Cap Equity Portfolio

This portfolio invests mainly in domestic stocks. The majority of the underlying securities have observable level 1 quoted pricing inputs. Most of the security prices were obtained from a pricing service, Interactive Data Corporation (IDC). While the underlying asset values are based on quoted market prices, the net asset value of the portfolio is not publicly quoted. Members should consider reporting these shares as level 2, since the value is based on market-corroborated data.

FMIvT International Equity Portfolio

This portfolio invests in two underlying funds, the Investec International Dynamic Equity Fund, LLC (Investec Fund) and the Wells Capital Management 525 Market Street Fund, LLC (Wells Fund), shares of which are not publicly quoted. Both Funds invest in stocks sold on U.S. and international exchanges, all of which have observable level 1 quoted pricing inputs. The value of the shares of the Investec Fund and the Wells Fund investment is determined based on the net asset value provided by the Funds, which was calculated in accordance with generally accepted accounting principles. Members should consider reporting these shares as level 2, since the value is based on market-corroborated data.

FMIvT Core Real Estate Fund

This portfolio invests in a single underlying fund, the Morgan Stanley Prime Property Fund (Morgan Stanley Fund), shares of which are not publicly quoted. The Morgan Stanley Fund invests in core real estate in the U.S. The value of the Morgan Stanley Fund investments was determined based on quarterly real estate appraisals, which were calculated in accordance with generally accepted accounting principles. Members should consider reporting shares as level 3, since the value is based on unobservable inputs.

NOTE 4. RECEIVABLES

Governmental funds report unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Both governmental and enterprise funds defer revenue recognition in connection with resources that have been received, but not yet earned. Accounts receivable for governmental activities are net of an estimated collection allowance of \$50,169,258. Accounts receivable for business-type activities does not include an estimated collection allowance. All receivable balances are expected to be received within the subsequent year.

Sarasota County, Florida
Notes to Financial Statements

NOTE 5. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The following is a schedule of interfund receivables and payables as of September 30, 2023:

A. DUE TO/FROM OTHER FUNDS:

Due to General Fund from		
Federal, State and Local Grants Fund	\$	79,923,538
Nonmajor Governmental Funds		8,166,369
Internal Service Funds		30,569
Total due to General Fund	<u>\$</u>	<u>88,120,476</u>
Due to Utility System from		
Internal Service Funds	\$	1,775,361
Total due to Utility System	<u>\$</u>	<u>1,775,361</u>
Total Interfund Payable	<u>\$</u>	<u>89,895,837</u>

The amounts above are expected to be repaid within one year and resulted from amounts borrowed to cover cash deficits at year-end. Additionally, Internal Service Fund inventory was purchased and is expected to be billed within one year.

B. INTERFUND TRANSFERS

Transfers to General Fund from:		
Emergency Services Special Revenue	\$	1,064,434
Federal, State and Local Grants Fund		257,371
Nonmajor Governmental Funds		1,387,802
Utility System		2,254,728
Solid Waste System		375,492
Stormwater Utility		298,845
Internal Service Funds		35,671
Total transfers to General Fund	<u>\$</u>	<u>5,674,343</u>
Transfers to Emergency Services Special Revenue from		
Nonmajor Governmental Funds	\$	67,972
Utility System		466,454
Solid Waste System		58,535
Stormwater Utility		57,536
Total transfers to Emergency Services Special Revenue	<u>\$</u>	<u>650,497</u>
Transfers to Infrastructure One Cent Sales Tax Capital Projects from		
Capital Revenue Programs Special Revenue	\$	30,890,155
Total transfers to Infrastructure One Cent Sales Tax Capital Projects	<u>\$</u>	<u>30,890,155</u>

On October 1, 2021, the County implemented a 40-month lease as lessee for the use of waste water/sewage treatment facility. An initial lease liability was recorded in the amount of \$233,428. As of year-end, the value of the lease liability is \$93,626. The County is required to make monthly variable principal and interest payments of \$5,864 the lease has an interest rate of 0.2980%. The value of the right-to-use asset as of year-end was \$233,428 with accumulated amortization of \$140,057. The County has two extension option(s), each for 120 months.

On December 16, 2021, the County entered into a 48-month lease as lessee for the use of office spaces. An initial lease liability was recorded in the amount of \$4,007,074. As of year-end, the value of the lease liability is \$2,238,621. The County is required to make monthly fixed payments of \$83,333 the lease has an interest rate of 0.4350%. The value of the right-to-use asset as of year-end was \$4,007,074 with accumulated amortization of \$1,776,332.

On October 1, 2021, the County implemented a 36-month shared facility lease as lessee for the use of district Fire Station No.1 and No.3. An initial lease liability was recorded in the amount of \$181,535. As of year-end, the value of the lease liability is \$62,483. The County is required to make monthly fixed payments of \$5,063 the lease has an interest rate of 0.2980%. The value of the right-to-use asset as of year-end was \$181,535 with accumulated amortization of \$121,023. The County has 2 extension option(s), each for 12 months.

On October 1, 2021, the County implemented a 46-month shared facility lease as lessee for the use of district Fire Station No.7. An initial lease liability was recorded in the amount of \$68,440. As of year-end, the value of the lease liability is \$32,863. The County is required to make monthly fixed payments of \$1,500 the lease has an interest rate of 0.4350%. The value of the right-to-use asset as of year-end was \$68,440 with accumulated amortization of \$35,708. The County has 2 extension option(s), each for 12 months.

On July 1, 2021, The County entered into a 60-month lease as lessee for the use of copy machine equipment. An initial lease liability was recorded in the amount of \$1,854,738. As of year-end, the value of the lease liability is \$1,407,302. The County is required to make monthly fixed payments of \$32,601 the lease has an interest rate of 2.1860%. The value of the right-to-use asset as of year-end was \$1,854,738 with accumulated amortization of \$463,685.

On October 1, 2021, the County implemented a 53-month lease as lessee for use of office space. An initial lease liability was recorded in the amount of \$139,890. As of year-end, the value of the lease liability is \$78,708. The County is required to make monthly fixed payments of \$2,619 the lease has an interest rate of 0.4350%. The value of the right-to-use asset as of year-end was \$139,890 with accumulated amortization of \$63,347. The County has 2 extension option(s), each for 60 months.

On October 1, 2021, the County implemented a 98-month lease as lessee for use of office space. An initial lease liability was recorded in the amount of \$163,108. As of year-end, the value of the lease liability is \$130,176. The County is required to make monthly fixed payments of \$1,453 the lease has an interest rate of 0.1930%. The value of the right-to-use asset as of year-end was \$163,108 with accumulated amortization of \$39,756. The County has 1 extension option(s), each for 95 months.

On October 1, 2021, the County implemented a 50-month lease as lessee for use of office space. An initial lease liability was recorded in the amount of \$943,927. As of year-end, the value of the lease liability is \$506,932. The County is required to make monthly fixed payments of \$18,662 the lease has an interest rate of 0.1930%. The value of the right-to-use asset as of year-end was \$943,927 with accumulated amortization of \$453,085. The County has 2 extension option(s), each for 24 months.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

On February 15, 2023, the County implemented a 48-month lease as lessee for use of office space. An initial lease liability was recorded in the amount of \$5,484,446. As of year-end, the value of the lease liability is \$4,873,962. The County is required to make semiannual payments with the first year's payments totaling \$1,630,686 the lease has an interest rate of 0.1930%. The value of the right-to-use asset as of year-end was \$5,484,446 with accumulated amortization of \$1,371,110. The County has 3 extension option(s), each for 48 months.

On October 1, 2021, the County Sheriff implemented a 60-month lease as lessee for the use of copy machine equipment. An initial lease liability was recorded in the amount of \$19,347. As of year-end, the value of the lease liability is \$4,763. The County Sheriff is required to make monthly fixed payments of \$668.70 the lease has an interest rate of 5.00%. The value of the right-to-use asset as of year-end was \$19,347 with accumulated amortization of \$13,781.

On October 1, 2021, the County Sheriff implemented a 60-month lease as lessee for the use of land. An initial lease liability was recorded in the amount of \$37,413. As of year-end, the value of the lease liability is \$21,094. The County Sheriff is required to make monthly fixed payments of \$820 the lease has an interest rate of 0.00%. The value of the right-to-use land asset as of year-end was \$37,413 with accumulated amortization of \$17,352.

On October 1, 2021, the County Sheriff implemented a 60-month lease as lessee for phase 1 of the use of copy machine equipment. An initial lease liability was recorded in the amount of \$105,032. As of year-end, the value of the lease liability is \$49,101. The County Sheriff is required to make monthly fixed payments of \$2,732 the lease has an interest rate of 5.00%. The value of the right-to-use asset as of year-end was \$105,032 with accumulated amortization of \$55,710.

On October 1, 2021, the County Sheriff implemented a 60-month lease as lessee for phase 2 of the use of copy machine equipment. An initial lease liability was recorded in the amount of \$47,538. As of year-end, the value of the lease liability is \$23,337. The County Sheriff is required to make monthly fixed payments of \$1,190 the lease has an interest rate of 5.00%. The value of the right-to-use asset as of year-end was \$47,538 with accumulated amortization of \$24,172.

On October 1, 2021, the County Sheriff implemented a 60-month lease as lessee for phase 3 of the use of copy machine equipment. An initial lease liability was recorded in the amount of \$23,089. As of year-end, the value of the lease liability is \$11,265. The County Sheriff is required to make monthly fixed payments of \$493 the lease has an interest rate of 5.00%. The value of the right-to-use asset as of year-end was \$23,089 with accumulated amortization of \$11,824.

On October 1, 2021, the County Sheriff implemented a 60-month lease as lessee for use of equipment. An initial lease liability was recorded in the amount of \$341,717. As of year-end, the value of the lease liability is \$122,845. The County Sheriff is required to make annually fixed payments of \$125,093 the lease has an interest rate of 5.00%. The value of the right-to-use asset as of year-end was \$341,717 with accumulated amortization of \$227,812.

On February 8, 2022, the County Sheriff implemented a 60-month lease as lessee for phase 4 of the use of copy machine equipment. An initial lease liability was recorded in the amount of \$25,457. As of year-end, the value of the lease liability is \$17,371. The County Sheriff is required to make monthly fixed payments of \$465 the lease has an interest rate of 5.00%. The value of the right-to-use asset as of year-end was \$25,457 with accumulated amortization of \$5,516.

B. Debt Issuance

\$24,575,000 Capital Improvement Revenue Bonds, Series 2023A

In June 2023, the County issued Capital Improvement Revenue Bonds, Series 2023A in the principal amount of \$24,575,000 to fund the design and construction of a (i) new Mosquito Management Facility which will include, among other things, labs and associated functions, aqua culture, fabrication and workshop, and administrative and staff accommodations and (ii) a new Emergency Services Administration Building. A portion of the proceeds were also used to refinance certain loans from the Commercial Paper Loan Program of the Florida Local Government Finance Commission. The Series 23A Bonds are secured by a lien upon and pledge of Half-Cent Sales Tax revenues and have an interest rate of 5%

\$39,020,000 Utility System Revenue Bonds, Series 2023

In July 2023, the County issued Utility System Revenue Bonds, Series 2023 in the principal amount of \$39,020,000 to provide funds, to design, acquire and construct certain water utility assets of the Utility System including but not limited to, the following: Home Depot Lift Station Improvements; Pump Station #5 and Proctor Road Transmission Main; Pump Station #1 Tank Fill Improvements; Lorraine Road RWM Extension (Phase 1 only); Venice Gardens WRF DIW and such additional projects as may be approved by the Board. The Series 2023 Bonds are secured by a lien upon and pledge of Net Revenues derived by the county from the operation of its Utility System, Subsidy Payments (if any), and from lawfully available Impact Fees and have an interest rate of 5%

C. Governmental Activity Debt

Governmental activity debt at year-end consisted of general obligation bonds, non-self-supporting revenue bonds, commercial paper, notes payable from direct borrowings and notes payable from direct placements.

General Obligation Bonds

The County issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds, which are direct obligations secured by a pledge of the full faith, credit and taxing power of the County, outstanding at year-end were as follows:

Issue	Purpose	Maturity	Interest Rate	Annual Principal Installment Range	Original Principal Amount	Outstanding Principal and Unamortized Premium Amount
General Obligation Bonds, Series 2019	To finance a portion of the acquisition and improvement of the Legacy Trail Extension railroad corridor within the County.	2038	2.00% to 5.00%	\$1,365,000 to 2,345,000	\$ 32,455,000	\$ 29,882,711

Sarasota County, Florida

Commercial Paper

Commercial paper loans are borrowed for a period of up to five years. The principal payments are set by Resolution for each loan during the financing process. Each note is issued defining the principal repayment dates and amounts. The variable interest rate is paid based on the sales of taxable commercial paper and is reset on a monthly basis.

Issue	Purpose	Maturity	Interest Rate	Annual Principal Installment Range	Original Principal Amount	Outstanding Principal Amount

Net Debt	<u>\$60,390,000</u>	<u>\$421,227,756</u>		

F. Conduit Debt Obligations

Conduit debt obligations are certain limited-obligation revenue bonds or similar debt instruments issued for the specific purpose of providing capital financing for a specific third party that is not a part of the County's financial reporting entity. To provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest, the County has issued Industrial Development Bonds. The County is authorized by the provisions of Chapter 159, Part II, Florida Statutes to make and execute financing agreements, contracts, deeds and other instruments to finance the acquisition, construction and equipping of projects that may be able to promote effective and efficient pollution control in the County by issuing revenue bonds. On September 30, 2023, there were four series of Industrial Revenue Bonds outstanding, with an aggregate principal amount payable of \$36,380,388.

The Sarasota County Health Facilities Authority was created by County Ordinance No. 77-52, enacted by the Board of County Commissioners of Sarasota County on June 21, 1977, pursuant to the provisions of the Health Facilities Authorities Law, Section 154.201 et seq., Florida Statutes. Pursuant to the Act, the Authority is authorized to acquire, construct and equip projects suitable for use by not-for-profit health facilities in the provision of nursing and like care services; to issue its revenue bonds to finance and refinance the cost of such projects; and to secure such revenue bonds by a pledge of the revenues derived from the projects and by mortgages and security interests in such projects. The Authority has no taxing power and approval by the Board of County Commissioners is required prior to the creation of any indebtedness by the Authority. On September 30, 2023, there were five series of Health Facilities Authority Bonds outstanding, with an aggregate principal amount payable of \$169,694,456.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

The Industrial Revenue Bonds and the Health Facilities Authority Bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership for the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the County, the State, nor any political subdivision thereof is obligated in any manner to repay the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

G. Legal Debt Margin

The County has no legal debt limit as set forth in the constitution of the State of Florida, Florida Statute 200.181.

H. Debt Agreements

Terms specified in debt agreements entered into by the County includes provisions related to remedies available to the lender in the event of default. A summary of the default remedies expressed in the County's debt agreements, summarized by type of borrowing include the following:

Issue Type	Default Remedy
General obligation bonds	Enforcement of pledge of the general tax power of the County.
Revenue bonds	Lender may protect and enforce any and all rights under the Laws of the State of Florida or granted and contained in the Bond Resolution.
Notes payable	Note shall bear interest at the Default Rate and the Lender may seek enforcement of and exercise all remedies available to it under any applicable law.
Commercial paper	Lender may seek enforcement of and exercise all remedies available to it under the loan agreement or any applicable law.
State Infrastructure Bank loan	Lender may pursue any available remedy at law or in equity, including those listed in the loan agreement.
Commercial lease	Lender may enforce the Florida Local Government Prompt Payment Act and/or bring an action at law or in equity to remedy and enforce the lender's rights under the lease or terminate the Lease.
Commercial Subscription	Lender may enforce the Florida Local Government Prompt Payment Act and/or bring an action at law or in equity to remedy and enforce the lender's rights under the subscription or terminate the subscription.

Other than the standard default remedies listed above, there are no terms specified in the County's debt agreements relating to significant events of default with finance-related consequences, termination events with finance-related consequences, or subjective acceleration clauses.

I. Restrictive Debt Covenants

Governmental Activities

Official statements and County resolutions authorizing the general obligation, revenue bonds and notes establish certain accounts and determine the order in which certain revenues are to be deposited into those accounts. All required balances were maintained at year-end. In connection with the commercial paper debt the County has covenanted to appropriate in its annual budget, from Non-Ad Valorem Revenues lawfully available, amounts sufficient to pay the debt service in each fiscal year. The County was in compliance with this covenant to budget and appropriate at year-end. Additional details on the relationship of the pledged amounts to the total, for specific revenues and principal and interest, can be found in the Pledged Revenue Coverage Schedules.

Business-type Activities

The Utility System bonds and notes and the Solid Waste System notes were secured by a pledge on the net revenues of each enterprise system as defined by their official statements. The County has covenanted in the resolution authorizing the Utility System Revenue Bonds (Series 2013, Series 2016A, Series 2016B, Series 2019A, Series 2020A, Series 2020B, Series 2022, and Series 2023), the Utility System Revenue Refunding Note (Series 2015) and the Subordinate Utility System Revenue Refunding Note (Series 2021) to fix, maintain and collect such fees, rates, rentals and other charges for the use of the products, services and facilities of the System which in each bond year will (i) provide revenues, excluding all capacity fees (formerly impact fees) debt service components, in an amount not less than the aggregate amount needed to pay 100% of the debt service requirement for said bond year, 100% of the costs of operation and maintenance of the systems, plus all required deposits to the reserve account and the renewal, replacement and improvement fund and (ii) provide revenues, including all capacity fees (formerly impact fees) debt service components as shall be sufficient to pay 120% of the debt service requirement for said bond year, 100% of the cost of operation and maintenance of the system, plus all required deposits to the reserve account and the renewal, replacement and improvement fund. The Utility System Funds were in compliance with these covenants at year-end.

The County has covenanted in the resolution authorizing the Solid Waste System Revenue Notes (Series 2015 and Series 2021), to fix, establish and maintain such rates and will collect such fees, rentals and other charges for the use of the services and facilities of the system and revise the same from time to time, whenever necessary, as will always provide revenues in each bond year as shall be sufficient to pay 100% of the current annual debt service requirement, the cost of operation and maintenance of the system and all required deposits to the reserve account and the renewal and replacement account required in the resolution. Such rates, fees, rentals or other charges shall not be reduced so as to be insufficient to provide net revenues for such purposes. The Solid Waste System Funds were in compliance with these covenants at year-end.

Additional details on the relationship of the pledged amounts to the total, for specific revenues and principal and interest, can be found the Pledged Revenue Coverage Schedules.

J. Arbitrage Rebate Liability

The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service at least every five years. At September 30, 2023 the County reported a total arbitrage rebate liability of \$67,627 in governmental activities.

K. Prior-Year Debt Defeasance

In prior years, the County defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust assets and the liability for the defeased bonds are not included in the County's financial statements. At September 30, 2023, there is no outstanding principal on these refunded bonds.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

L. Pledged Revenues

The County has pledged certain revenues to repay certain revenue bonds and notes outstanding at September 30, 2023. The following table reports the revenues, sometimes net of related operating expenses, pledged for each debt issue, the amount of such revenues received in the current year, the current year principal and interest paid on the debt, the approximate percentage of each revenue which is pledged to meet the debt obligation, the date through which the revenue is pledged under the debt agreement, and the total pledged future revenues for each debt, which is the amount of the remaining principal and interest on the revenue bonds and notes at September 30, 2023:

NOTE 8. LANDFILL CLOSURE AND POSTCLOSURE CARE COST

State and federal laws and regulations require the Solid Waste System to place a final cover on its Bee Ridge and Central County landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at each site for thirty years after closure. Although closure and post closure care costs will be paid only near or after the date that the landfill stops accepting waste, the System reports a portion of these closure and post closure costs each balance sheet date.

The \$25,236,381 reported as landfill closure and post closure care liability at year end, represents the cumulative amount reported to date based on the use of one hundred percent of the estimated capacity of the Bee Ridge landfill and 34.38 percent of the estimated capacity of the Central County landfill. The large reduction in liability is the result of 20.8 million cubic yards being made available in Fiscal Year 2023, substantially increasing available capacity of the Central County landfill. The System will recognize the remaining estimated cost of care of \$52,890,946 as the remaining capacity at the Central County landfill is filled. These amounts are based on what it would cost to perform all closure and post closure care in 2023. The System closed the Bee Ridge landfill in the year 1998 and expects to close the Central County landfill during fiscal year 2044, leaving 20 years of estimated remaining life.

These amounts are estimates and the actual costs are subject to change resulting from inflation, deflation, technology, or changes in applicable laws or regulations. The System expects that future inflation costs will be paid from interest earnings on annual contributions to a fund to finance closure and post closure care. However, if interest earnings are inadequate or additional post closure care requirements are determined; these costs may need to be covered by charges to future landfill users or from future tax revenue.

The System is required by state and federal laws and regulations to make annual contributions to a fund to finance closure and post closure care. The System uses the financial test to demonstrate financial assurance, as specified on Subpart H of 40 CFR Part 264, as adopted by reference in Rule 62-701.630, Florida Administrative Code. The System was in compliance with these requirements at fiscal year end.

NOTE 9. RISK MANAGEMENT-

The County is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The County has established various self-insurance internal service funds. These funds include risk management of general and automotive liability, employee group health insurance activities and workers' compensation. The County is self-insured under the sovereign immunity up to a maximum of \$200,000 per person/\$300,000 per occurrence for claims against the County involving negligence, including automobile and general liability.

Negligence claims in excess of the statutory limits set in Section 768.28, Florida Statutes, can only be recovered through an act of the State of Florida Legislature. The County carries specific workers' compensation excess insurance for claims exceeding \$500,000. Employee medical benefit claims exceeding \$700,000 per covered participant are covered with unlimited excess insurance.

Reserves have been established for both claims that have been reported but not paid and for claims incurred but not reported. Reserves for the risk management fund and the workers' compensation fund are based on an actuarial valuation as of fiscal year-end, include allocated loss adjustment expenses and are recorded at present value at the expected confidence level. Reserves for general liability, automobile liability, employment practices and workers' compensation are based on present value factors ranging from 0.93-1.00, 0.94-1.00, 0.93-1.00, and 0.73-0.89, respectively. Reserves for the medical benefits fund are based on industry standards of two months of current year claims expense.

On October 1, 2018, the Sarasota County, Florida Sheriff ("Sheriff") established its own liability program for risk management and workers' compensation claims in accordance with applicable regulations. The Sheriff has the sole obligation and responsibility for funding the payment of claims occurring after September 30, 2018 as required under the law. Also, effective January 1, 2019, the Sheriff established their own plans that include risk

**Sarasota County, Florida
Notes to Financial Statements
September 30, 2023**

management of general and automotive liability, employee group health insurance activities, and workers' compensation.

The Sheriff is insured under sovereign immunity up to a maximum of \$200,000 per person/\$300,000 per occurrence for claims against the Sheriff involving negligence, including automobile and general liability. Negligence claims in excess of statutory limits set in Section 768.28, Florida Statutes, can only be recovered through an act of the State of Florida Legislature. The Sheriff carries a fully insured workers' compensation plan. Employee medical benefit claims exceeding \$250,000 per covered participant are covered with unlimited excess insurance. There have been no significant reductions in insurance coverage in the last year.

Reconciliation of aggregate claims liabilities:

	Risk Management	Medical Benefits	Workers' Compensation	Sheriff's Insurance

NOTE 10. EMPLOYEE RETIREMENT PLANS

Florida Retirement System Defined Benefit Pension Plan

Background

The Florida Retirement System (FRS) was created by Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree Health Insurance Subsidy (HIS) Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the County are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost sharing, multiple employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' Web site (www.dms.myflorida.com).

The impact to the County's pension expense (credit) totaled \$109,430,613 for the FRS Pension Plan, the HIS Plan and the City of Sarasota's Firefighters pension plan for the year ended September 30, 2023.

Sarasota County, Florida

Florida Retirement System Pension Plan

Plan Description

The Florida Retirement System Pension Plan (the FRS Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program (DROP) for eligible employees. The general classes of membership are as follows:

- Regular Class – Members of the FRS who do not qualify for membership in the other classes.
- Elected County Officers Class – Members who hold specified elective offices in local government.
- Senior Management Service Class (SMSC) – Members in senior management level positions.
- Special Risk Class – Members who are special risk employees, such as law enforcement officers, meet the criteria to qualify for this class.

Employees enrolled in the FRS Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the FRS Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, except for members classified as special risk who are eligible for normal retirement benefits at age 55 or at any age after 25 years of service. All members enrolled in the FRS Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service, except for members classified as special risk who are eligible for normal retirement benefits at age 60 or at any age after 30 years of service.

Employees enrolled in the FRS Plan may include up to 4 years of credit for military service toward creditable service. The FRS Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The FRS Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the FRS Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided

Benefits under the FRS Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the 5 highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years' earnings.

The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

Sarasota County, Florida
Notes to Financial Statements

Class, Initial Enrollment, and Retirement Age/Years of Service:	% Value
Regular Class members initially enrolled before July 1, 2011	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement up to age 63 or up to 31 years of service	1.63
Retirement up to age 64 or up to 32 years of service	1.65
Retirement up to age 65 or up to 33 years of service	1.68
Regular Class members initially enrolled on or after July 1, 2011	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement up to age 66 or up to 34 years of service	1.63
Retirement up to age 67 or up to 35 years of service	1.65
Retirement up to age 68 or up to 36 years of service	1.68
Elected County Officers	3.00
Senior Management Service Class	2.00
Special Risk Regular	
Service from December 1, 1970, through September 30, 1974	2.00
Service on and after October 1, 1974	3.00

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. FRS Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions

The County's contributions to the FRS Plan were \$42,612,483 for the year ended September 30, 2023. The Florida Legislature establishes contribution rates for participating employers and employees. Effective July 1, 2011, all FRS Plan members (except those in DROP) are required to make 3% employee contributions on a pretax basis. The employer contribution rates by job class for the periods from October 1, 2022 through June 30, 2023 and from July 1, 2023 through September 30, 2023 are as follows:

Job Class	October 1, 2022 - June 30, 2023	July 1, 2023 - September 30, 2023
Regular	11.91%	13.57%
Special Risk - Regular	27.83%	32.67%
Special Risk- Administrative	38.65%	39.82%
Elected Officers	57.00%	58.68%
Senior Management Services	31.57%	34.52%
DROP Participants	18.60%	21.13%

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

Pension Costs

At September 30, 2023, the County reported a liability of \$333,342,865 for its proportionate share of the FRS Plan's net pension liability. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2023.

The County's proportion of the net pension liability was based on the County's contributions received by FRS during the measurement period for employer payroll paid dates from July 1, 2022 through June 30, 2023, relative to the total employer contributions received from all of FRS's participating employers. At June 30, 2023, the County's proportion was 0.8366%, which is an increase of 0.0298% from its proportion measured as of June 30, 2022 of 0.8068%.

For the year ended September 30, 2023, the impact to the County's pension expense totaled \$67,065,326 for its proportionate share of FRS's pension expense. In addition, the County reported its proportionate share of FRS's deferred outflows of resources and deferred inflows of resources from the following sources:

<u>Description</u>	<u>Deferred outflows of resources</u>	<u>Deferred inflows of resources</u>
Differences Between Expected and Actual Economic Experience	\$ 31,298,019	\$ -
Changes in Actuarial Assumptions	21,730,053	-
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	13,921,300	-
Changes in Proportion and Differences Between County Contributions and Proportionate Share of Contributions	8,642,452	10,576,685
County Contributions Subsequent to the Measurement Date	11,741,826	-
Total	<u>\$ 87,333,650</u>	<u>\$ 10,576,685</u>

\$11,741,826 reported as deferred outflows of resources related to pensions resulting from County contributions to the FRS Plan subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2024. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized as an increase (decrease) in pension expense as follows:

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized as an increase (decrease) in pension expense as follows:

<u>Year Ended September 30</u>	<u>Amount</u>
2024	\$ 9,102,119
2025	(3,250,757)
2026	52,662,263
2027	5,201,211
2028	1,300,303
Thereafter	-

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

Actuarial Assumptions

The total pension liability in the July 1, 2023, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.40% Per year
Salary Increases	3.25%, Average, Including inflation
Investment Rate of Return	6.70%, Net of investment expense, Including inflation

Mortality rates were based on the PUB-2010 base table varies by member category and sex; projected generationally with Scale MP-2018. The actuarial assumptions used in the July 1, 2023 valuation were based on the results of an actuarial experience study for the period July 1, 2013 through June 30, 2018.

The long-term expected rate of return on pension plan investments is not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation, as outlined in the FRS Plan's investment policy, and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.0%	2.9%	2.9%	1.1%
Fixed income	19.8%	4.5%	4.4%	3.4%
Global equity	54.0%	8.7%	7.1%	18.1%
Real estate (property)	10.3%	7.6%	6.6%	14.8%
Private equity	11.1%	11.9%	8.8%	26.3%
Strategic investments	3.8%	6.3%	6.1%	7.7%
Assumed Inflation - Mean			2.4%	1.4%

Discount Rate

The discount rate used to measure the total pension liability was 6.70% for the FRS Plan. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, each of the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Liability Sensitivity

The following presents the County's proportionate share of the net pension liability for the FRS Plan, calculated using the discount rate disclosed in the preceding paragraph, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

Description	1% Decrease in discount rate	Current discount rate	1% Increase in discount rate
FRS Plan Discount Rate	5.70%	6.70%	7.70%
County's Proportionate Share of FRS Plan Net Pension Liability	\$ 569,417,491	\$ 333,342,865	\$ 135,838,194

Retiree Health Insurance Subsidy Program

Plan Description

The Retiree Health Insurance Subsidy Program (the HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement. Detailed information about the HIS Plan's fiduciary's net position is available in a separately-issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report. That report may be obtained through the Florida Department of Management Services website at <http://www.dms.myflorida.com>.

Benefits Provided

For the fiscal year ended June 30, 2023, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions

The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2023, the contribution rate was 1.66 percent of payroll pursuant to section 112.363, Florida Statutes. The County contributed 100 percent of its statutorily required contributions for the current and preceding 3 years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled. The County's contributions to the HIS Plan were \$6,673,606 for the year ended September 30, 2023.

Costs

At September 30, 2023, the County reported a liability of \$103,934,782 for its proportionate share of the HIS Plan's net pension liability. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2023. The County's proportion of the net pension liability was based on the County's contributions received during the measurement period for employer payroll paid dates from July 1, 2022 through June 30, 2023, relative to the total employer contributions received from all participating employers. At June 30, 2023, the County's proportion was 0.6544%, which was an increase of 0.0109% from its proportion of 0.6436% measured as of June 30, 2022.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

For the year ended September 30, 2023, the impact to the County's pension expense (credit) totaled \$39,431,720 for its proportionate share of HIS's pension expense. In addition, the County reported its proportionate share of HIS's deferred outflows of resources and deferred inflows of resources from the following sources:

Description	Deferred outflows of resources	Deferred inflows of resources
Differences Between Expected and Actual Economic Experience	\$ 1,521,535	\$ 243,949
Changes in Actuarial Assumptions	2,732,414	9,006,299
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	53,674	-
Changes in Proportion and Differences Between County Contributions and Proportionate Share of Contributions	2,530,543	1,461,203
County Contributions Subsequent to the Measurement Date	1,347,506	-
Total	\$ 8,185,672	\$ 10,711,451

\$1,347,506 reported as deferred outflows of resources related to pensions resulting from County contributions to the FRS Plan subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2024. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized as an increase (decrease) in pension expense as follows:

Year Ended September 30	Amount
2024	\$ (658,459)
2025	(426,062)
2026	(697,192)
2027	(1,355,646)
2028	(697,192)
Thereafter	(38,734)

Actuarial Assumptions

The total pension liability in the July 1, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.40% Per year
Salary Increases	3.25%, Average, Including inflation
Investment Rate of Return	3.65%, Net of investment expense, Including inflation

Mortality rates were based on the Generational PUB-2010 with Projection Scale MP-2018. The HIS program is funded on a pay as you go basis and no experience study has been completed for the program. Thus, the above actuarial assumptions that determine the total pension liability as of June 30, 2023 were based on certain results of an actuarial experience study of the FRS for the period of July 1, 2013 – June 30, 2018.

Discount Rate

The discount rate used to measure the total pension liability was 3.65% for the HIS Plan. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

Liability Sensitivity

The following presents the County's proportionate share of the net pension liability for the HIS Plan, calculated using the discount rate disclosed in the preceding paragraph, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

Description	1% Decrease in discount rate	Current discount rate	1% Increase in discount rate
HIS Plan Discount Rate	2.65%	3.65%	4.65%
County's Proportionate Share of HIS Plan Net Pension Liability	\$ 118,573,365	\$ 103,934,782	\$ 91,800,380

Defined Contribution Plan

The Florida State Board of Administration (SBA) administers the defined contribution plan officially titled the FRS Investment Plan (Investment Plan). The Investment Plan is reported in the SBA's annual financial statements and in the State of Florida Annual Comprehensive Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. County employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06% of payroll and by forfeited benefits of plan members.

Allocations to the investment member's accounts during the 2022-23 fiscal year, as established by Section 121.72, Florida Statutes, are based on a percentage of gross compensation, by class, as follows: Regular Class 9.30%, Special Risk Administrative Support Class 10.95%, Special Risk Class 17.00%, Senior Management Service Class 10.67% and County Elected Officers Class 14.34%. The allocations include a required employee contribution of 3% of gross compensation for each member class.

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Non-vested employer contributions are placed in a suspense account for up to 5 years. If the employee returns to FRS-covered employment within the 5-year period, the employee will regain control over their account. If the employee does not return within the 5-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2023, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the County.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

The County's Investment Plan pension expense totaled \$7,936,328 for the year ended September 30, 2023.

Employee contributions to the Investment Plan totaled \$1,496,603 for the year ended September 30, 2023.

Firefighters' Pension Fund

Plan Description

The City of Sarasota maintains a cost-sharing multiple-employer defined benefit pension plan for all full-time firefighters which is maintained as a pension trust fund. Florida Statute Chapter 175 requires that the Board of Trustees be comprised of two members appointed by the City Council, two firefighters elected by a majority of the firefighters who are members of the Fund, and a fifth member chosen by a majority of the other members and ministerial appointed by the City Council.

The Florida Constitution requires local governments to make the actuarially determined contribution to their defined benefit plans. The Florida Division of Retirement reviews each local government's actuarial report prior to its being appointed for use for funding purposes. The Fund is administered in accordance with Chapter 24, Article II, of the Sarasota City Code 1986, and restated on November 16, 2009. On January 1, 1996, the City of Sarasota Fire and Rescue Department was consolidated with Sarasota County, as such the Fund is closed to new entrants. The Fund remains intact with the City of Sarasota and Sarasota County making the employer contributions.

Benefits Provided

The Fund covers former City of Sarasota firefighters who are employed by Sarasota County as a result of consolidation. Effective April 7, 2003, any participant who has credible service of 10 years and has attained age 50 or has credible service of 25 years is eligible for normal retirement. Such a retiree would receive a normal retirement benefit of 3.0% of average annual earnings during the highest 3 years of service during the last 10 years of service multiplied by the years of service. The pension benefit cannot exceed the average taxable earnings for the last 3 years of employment. The pension being paid to any firefighter or the survivor of a deceased firefighter was increased annually by 3.5% on October 21, 1998.

The Fund provides disability benefits for both duty related and non-duty related disabilities. Effective April 7, 2003, disability caused by performance of duties is computed at 3.0% of average compensation multiplied by years of services (minimum 25 years) and at all times, must be equal to at least 50% of the base salary for a journeyman fire medic top step. A not in line of duty disability is computed at 2.5% of average compensation multiplied by years of service plus 5% of the firefighter's last monthly salary for each eligible child.

The Fund provides death benefits for both duty related and non-duty related deaths. Effective April 7, 2003, death caused by performance of duties is computed at two-thirds of 3.0% of average compensation multiplied by years of service (minimum 25 years) plus 5% of the firefighter's last monthly salary for each eligible child. The pension paid to a surviving spouse of a firefighter that died in the line of duty prior to April 7, 2003, shall, at all times, be equal to at least one-third of the base salary for a journeyman fire top step. A not in line duty death is computed at two-thirds of 2.5% of average compensation multiplied by years of service plus 5% of the firefighter's last monthly salary for each eligible child, and must be a minimum of their accrued benefit.

Contributions

Participants are required to contribute 8% of their annual salary to the Fund. Other contributions are received from the State of Florida, the City of Sarasota and Sarasota County. The City of Sarasota and Sarasota County contribute amounts to make the Fund actuarially sound. The State of Florida contribution results from the City's share of insurance tax under Chapter 175.

Sarasota County is required to contribute an actuarially determined rate, designed to accumulate sufficient assets to pay benefits when due. Under the terms of an interlocal agreement between the County and the City of Sarasota, the County is required to pay \$1,700,000 of the first \$2,200,000 of the total annual required contribution (ARC). Anything in excess of \$2,200,000 is paid 35% by the City and 65% by the County. The County's contribution to the Plan for the year ending September 30, 2023 was \$3,466,476.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

Pension Costs

At September 30, 2023 the County reported a liability (asset) of 12,195,544 for its proportionate share of the City of Sarasota Firefighter's Pension Plan's net pension liability (asset). The net pension liability (asset) was measured as of September 30, 2022, and the total pension liability (asset) used to calculate the net pension liability (asset) was determined by an actuarial valuation as of September 30, 2022. The County's proportion of the net pension liability is 67%.

For the year ended September 30, 2023, the impact to the County's pension expense (credit) was \$2,933,567 for its proportionate share of the City of Sarasota Firefighter's Pension Plan expense. In addition, the County reported its proportionate share of deferred outflows of resources and deferred inflows of resources from the following sources:

<u>Description</u>	<u>Deferred outflows of resources</u>	<u>Deferred inflows of resources</u>
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	\$ 12,169,915	\$ -
County Contributions Subsequent to the Measurement Date	1,233,179	-
Total	<u>\$ 13,403,094</u>	<u>\$ -</u>

The \$1,233,179 reported as deferred outflows related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2024. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized as a decrease (increase) in pension expense as follows:

<u>Year Ended September 30,</u>	<u>Amount</u>
2024	\$ 3,492,147
2025	2,381,814
2026	1,732,884
2027	4,563,070

Actuarial Assumptions

The total pension liability in the September 30, 2022 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement:

Actuarial cost method	Entry Age Normal
Amortization method	Level Dollar, Closed
Remaining amortization period	2 years beginning October 1, 2021
Asset valuation method	3-Year smoothed market
Inflation	NA
Salary increases	NA
Investment rate of return	6.85%
Retirement age	NA
Mortality	The Florida Retirement System (FRS) mortality tables which use variations of the fully generational Pub-2010 Mortality Tables with improvement scale MP-2018.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

Discount Rate

A single discount rate of 6.85% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 6.85%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Liability Sensitivity

The following presents the County's proportionate share of the net pension liability (asset) for the City of Sarasota's Firefighters pension plan, calculated using the discount rate disclosed in the preceding paragraph, as well as what the County's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate of one percentage point lower or one percentage point higher than the current discount rate:

<u>Description</u>	<u>1% Decrease in discount rate</u>	<u>Current discount rate</u>	<u>1% Increase in discount rate</u>
City of Sarasota Firefighter's Pension Plan Discount Rate	5.85%	6.85%	7.85%
County's Proportionate Share of Firefighters pension plan Net Pension Liability (Asset)	\$ 24,826,870	\$ 12,195,544	\$ 1,569,674

The pensions plan's fiduciary net position detailed information is available in a separately issued financial report. This report may be obtained through <https://www.sarasotafl.gov/government/city-auditor-and-clerk/pensions/fire-pension>.

Summary of Defined Benefit Pension Plans

The aggregate amount of net pension liability (asset), related deferred outflows of resources and deferred inflows of resources and pension expense for the County's defined benefit pension plans are summarized below:

<u>Description</u>	<u>FRS Plan</u>	<u>HIS Plan</u>	<u>Firefighter's Pension Plan</u>	<u>Total</u>
Net Pension Liability (Asset)	\$ 333,342,865	\$ 103,934,782	\$ 12,195,544	\$ 449,473,191
Deferred Outflows of Resources Related to Pensions	87,333,650	8,185,672	13,403,094	108,922,416
Deferred Inflows of Resources Related to Pensions	10,576,685	10,711,451	-	21,288,136
Pension Expense	67,065,326	39,431,720	2,933,567	109,430,613

Net pension liabilities associated with the Florida Retirement System and Retiree Health Insurance Subsidy Program are liquidated in the individual fund to which the liability is directly associated. For the Firefighter's Pension Plan, liabilities are liquidated in the emergency services special revenue fund, which captures public safety expenditures.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

NOTE 11. DEFERRED COMPENSATION PLAN

Sarasota County offers its employees the Internal Revenue Code (IRC) Section 457(b) Deferred Compensation Plan in accordance with the IRC Section 457(b). Sarasota County is an eligible employer as defined in Code 457(e)(1)(A). Sarasota County offers Roth 457(b) accounts within the 457(b) plan. Both plans, available to all County employees and Elected Officials, permit the deferral of a portion of salary until future years.

Plans provide eligible employees with the opportunity to accumulate retirement savings through employee contributions to an individual account. Participants are responsible for directing the investment of their assets among the investment options available under the plans. Participants may voluntarily contribute any amount not to exceed the maximum contribution amounts set by the Internal Revenue Service. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

The 1996 Internal Revenue Service regulations require that all amounts of deferred compensation, all property and rights purchased with such amounts, and all income attributable to such amounts, property or rights shall be held for the exclusive benefit of plan participants and their beneficiaries. The County amended its plans for this provision and was in full compliance by the required January 1, 1999 implementation date. GASB Statement No. 32 guidance requires for reporting periods beginning after December 31, 1998 alternative financial reporting standards for entities meeting the new requirements of IRC Section 457. The alternative reporting requirement became relevant to the County's fiscal year 2000 financial statements. Under GASB Statement No. 32, the County is no longer required to report its Section 457 plan subsequent to fiscal year 1999. There were no additional financial reporting requirements after the implementation of GASB Statement No. 97.

NOTE 12. POST-EMPLOYMENT BENEFITS (OTHER THAN PENSIONS)

Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions, requires governments to account for other post-employment benefits (OPEB) on an accrual basis, rather than on a pay-as-you-go basis. The effect is the recognition of an actuarially determined expense on the Statement of Activities when a future retiree earns their post-employment benefits, rather than when they use their post-employment benefit. The post-employment benefit liability is recognized on the Statement of Net Position over time. GASB Statement 74, *Financial Reporting for Post-Employment Benefit Plans Other Than Pension Plans* establishes financial reporting standards for state and local governmental OPEB plans - defined benefit OPEB plans and defined contribution OPEB plans - that are administered through trusts or equivalent arrangements (hereafter jointly referred to as trusts) in which:

- a. Contributions from employers to the OPEB plan and earnings on those contributions are irrevocable.
- b. OPEB plan assets are dedicated to providing OPEB to plan members in accordance with the benefit terms.
- c. OPEB plan assets are legally protected from the creditors of employers, non-employer contributing entities, and the OPEB plan administrator.

Sarasota County's Retiree Healthcare Plan description

Sarasota County's Retiree Health Care Plan (Plan) is a single-employer defined benefit post-employment health care plan (OPEB) that covers eligible retired employees. The Plan, which is administered by the County, allows employees who retire and meet retirement eligibility requirements under one of the County's retirement plans to continue medical coverage as a participant in the County's plan.

Pursuant to the provisions of Section 112.0801 Florida Statutes, any employee who retires and immediately begins receiving benefits from the Florida Retirement System (FRS) has the option of paying premiums to continue in the County's healthcare plan at the same cost that is applicable to active employees. The retiree's cost is partially offset by a subsidy from the Florida Retirement System equal to \$5 per month for each year of creditable service, with a minimum of \$30, and a maximum of \$150 per month. Coverage can be continued for

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

the spouse after the death of the retiree, at a retiree's single person subsidized rate, if elected. The County has no formal funding policy and did not contribute to the fund during the 2023 fiscal year.

Benefits are established by the County's Board of County Commissioners. The Board of County Commissioners may change or amend funding provisions and negotiate to modify the OPEB. Transfers and investment changes must be made in accordance with plan provisions. The County does not issue a stand-alone financial report specific to the OPEB plan. The County's plan is open to new entrants.

Sheriff's Retiree Health Care Plan description

Sheriff's Retiree Health Care Plan (Sheriff's Plan) is a single-employer defined benefit postemployment health care plan (OPEB) that covers eligible retired employees. The Sheriff provides post-employment health care benefits in accordance with Florida Statutes Section 112.0801 to all employees who retire from the Sheriff's office. The Sheriff is required to provide health care coverage at cost to all retirees but does not have to pay any portion of the premium for the retiree to participate in the Sheriff's group health care plan.

Pursuant to the provisions of F.S. Section 112.0801, any employee who retires and immediately begins receiving benefits from the Florida Retirement System (FRS) has the option of paying premiums to continue in the Sheriff's healthcare plan at the same cost that is applicable to active employees. The retiree's cost is partially offset by a subsidy from the Florida Retirement System equal to \$5 per month for each year of creditable service, with a minimum of \$30, and a maximum of \$150 per month. Coverage can be continued for the spouse after the death of the retiree, at a retiree's single person subsidized rate, if elected.

The Sheriff has the authority to establish and amend the funding policy. The Sheriff's Plan is currently being funded on a pay-as-you go basis. There are no assets accumulated in a trust that meet the criteria in GASB 75 for the Sheriff's Plan as of fiscal year end. The Sheriff's Plan remains open to new entrants.

Employees Covered by Benefit Terms

Actuarial reports provide information about the number of employees by type of covered within the various plans. Table below shows that number of employees covered by the benefit terms of each of the plans as of the most recent valuation.

	Sarasota County	Sheriff	Total Plans
Active participants	2,588	965	3,553
Beneficiaries receiving benefits	169	205	374
Total	2,757	1,170	3,927

Sarasota County OPEB plan investments

The primary asset classes include:

<u>Asset Class</u>	<u>Portfolio Allocation</u>	<u>Amount in Trust as of September 30, 2023</u>
Cash	0.2%	\$ 13,229
Broad Market High Quality Bonds	19.7%	1,303,057

Diversified Small to Mid Cap	6.4%	423,328
International Equity	16.9%	1,117,851
Core Real Estate	14.1%	932,645
	<u>100.0%</u>	<u>\$ 6,614,505</u>

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

The County's Board of County Commissioners is the Governing Body that can make changes in the fund choices or allocations.

Receivables

As of September 30, 2023 no amounts were due to the trust.

Total OPEB liability

The County's total OPEB liability was measured as of September 30, 2023, and was determined by an actuarial valuation as of September 30, 2022, updated to September 30, 2023.

The Sheriff's total OPEB liability was measured as of September 30, 2023 and was determined by an actuarial valuation as of September 30, 2022.

Sarasota County actuarial assumptions and other inputs

The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation Rate	2.50%
Salary Increase Rate(s)	Varies by service
Discount Rate	7.00%
Initial Trend Rate	7.00%
Ultimate Trend Rate	4.00%
Years to Ultimate	53
Investment Rate of Return	7.00%

The valuation assumes a discount rate of 7.00% per annum, compounded annually, net of investment expenses. All mortality rates were based on the Pub-2010 mortality tables with fully generational improvement using Scale MP-2018. Rates are based on those outlined in Milliman's July 1, 2021 Florida Retirement System (FRS) valuation report.

Sheriff's Actuarial assumptions and other inputs

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Calculations for financial reporting purposes are based on the benefits provided under terms of the plan as understood by the employer and the plan members in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future. Actuarial calculations reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

The actuarial methods are:

Inflation Rate	2.50%
Salary Increase Rate(s)	3.40% - 7.80%
Discount Rate	4.63%
Healthcare cost trend rate	7.50%

Mortality rates are the same as used in the July 1, 2021 actuarial valuation of the Florida Retirement system for non-K-12 Instructional Regular Class and Special Risk Class members. These rates were taken from adjusted Pub-2010 mortality tables published by the Society of Actuaries with generational mortality improvements using Scale MP-2018. Adjustments to referenced tables are based on the results of a statewide experience study covering the period 2013 through 2018.

Sarasota County's amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

For the Year Ending September 30,	
2024	\$ 835,094
2025	818,189
2026	661,543
2027	179,047
2028	(197,124)
Thereafter	(95,885)
Total	<u>\$ 2,200,864</u>

Sheriff's amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

For the Year Ending September 30,	
2024	\$ 272,824
2025	\$ 272,824
2026	\$ 272,824
2027	\$ 272,824
2028	\$ 272,824
Thereafter	795,165
Total	<u>\$ 2,159,285</u>

Note 13. CONTINGENCIES

Federal, State and Local Grants

Grant monies received and disbursed by the County are for specific purposes and are subject to review by the grantor agencies. Such audits may result in requests for reimbursement due to disallowed expenditures. Based upon prior experience, the County does not believe that such disallowances, if any, would have a material effect on the financial position of the County.

Litigation

On February 25, 2011, Sarasota Doctors Hospital, Inc. and Englewood Community Hospital, Inc. and Venice HMA, LLC d/b/a Venice Regional Medical Center (collectively, the "Plaintiffs") filed declaratory actions against the County and the Sarasota County Public Hospital District seeking reimbursement for health care services provided to indigents patients. Invoices, which have been presented to the County and have not been paid by the County, are estimated to be approximately \$833,000,000 as of September 30, 2023. The invoices are based on a 2003 reenactment of a 1959 special act (the "Special Act") unique to the County that, to this date, has never previously been used to support claims of this nature. The County challenged the lawfulness of the Special Act on several bases that resulted in the case being addressed in advance of trial by the Second District Court of Appeals and the Florida Supreme Court. Neither the ruling by the Florida Supreme Court nor the ruling by the Second District Court of Appeal required the County to reimburse the private hospitals for indigent medical care. The matter proceeded to trial in June 2022 concluding with a Final Judgment in favor of the County on November 10, 2022, ruling that the Special Act did not waive the County's sovereign immunity and accordingly did not create an obligation compelling the County to pay Plaintiff's claims for reimbursement for the costs of health care services provided to medically indigent patients. The Court also found that the Plaintiffs failed to comply with the provisions of the Special Act to seek reimbursement thereunder. The Plaintiffs have filed their respective notices of appeal to the Second District Court of Appeals. Oral arguments occurred on November 15, 2023.

Sarasota County, Florida
Notes to Financial Statements
September 30, 2023

Additionally, the County is a defendant in various lawsuits in the normal course of business. To the extent, the outcome of such litigation has been determined to result in probable loss to the County; such loss has been accrued in the accompanying financial statements. Litigation where loss to the County is reasonably possible has not been accrued; however, a reserve for general liability claims has been established in the risk management fund - see Note 9 for additional information. Although the outcome of the remaining claims is not presently determinable, it is the opinion of the County's General Counsel that resolution of these matters will not have a material adverse effect on the financial condition of the County.

NOTE 14. SUBSEQUENT EVENTS

On November 09, 2023, the County issued Capital Improvement Revenue Bonds, Series 2023B in the principal amount of \$27,620,000 to finance the construction an Administration office for County Administration and Board Chambers, and an Enterprise Information Technology Center and Employee Health Center.

On November 09, 2023, the County issued Infrastructure Sales Surtax Revenue Bonds, Series 2023, in the principal amount of \$82,540,000, to finance a variety of capital projects including but not limited to an additional pool at Selby Aquatic Center, advance ROW acquisition program, Blackburn Point Road movable bridge replacement, bridge repair, rehabilitation and replacement program, County History Center/Fruitville Library expansion and renovation, data center replacement, educational outreach garden, Snook Haven Park improvements, fiber optic data transmission lines, Fire/ EMS regional training academy/ phase II construction, Fruitville Road widening from Debreceen Road to Lorraine Road, Honore Avenue widening (Fruitville Road to 17th Street), Lorraine Road extension (Fruitville to Palmer), new County Administration center, parks, recreation and natural resources administration facility, replacement of helicopter air 2, solar photovoltaic program, sports complex, and athletic facilities development and improvements, Nathan Benderson Park connector trail, and the Supervisor of Elections administrative facility.

Also on December 11, 2023, the County issued Florida Local Government Finance Commission Pooled Commercial Paper Revenue Note, Draw A-34-1, in the principal amount of \$2,991,000, to finance portable mobile radio and ballistic gear projects.

On January 16, 2024, the County issued Capital Improvement Revenue Bonds, Series 2024A in the principal amount of \$25,035,000, to finance acquisition, construction and equipping of a sports stadium to include approximately four multi-purpose fields, nine youth softball fields, three adult softball fields and multiple buildings across the sports complex, including, but not limited to, maintenance facilities, restrooms, concessions, meeting rooms, office spaces, locker rooms and storage, to be located at the 17th Street Regional Park.

NOTE 15. DEFICIT FUND BALANCES

The following Non-Major Governmental fund ended the year with a deficit balance in unassigned fund balance:

Federal, State and Local Grants Fund

The Federal, State and Local Grants Fund has a negative unassigned fund balance of \$51,139,173 as of September 30, 2023. This negative balance is a result of Hurricane Irma making landfall on September 10, 2017 and Hurricane Ian making landfall on September 23, 2022. This negative balance will clear after the Federal Emergency Management Agency (FEMA) project worksheets are finalized and approved for reimbursement for those events.

The following Enterprise fund ended the year with a deficit balance in unrestricted net position:

Non-major Transit

The Non-major Transportation Authority Fund has a negative unrestricted net position of \$2,158,860 as of September 30, 2023. This negative balance is due to an increase to Net Pension Liability which varies annually.

**Sarasota County, Florida
Notes to Financial Statements
September 30, 2023**

The following Internal Service funds ended the year with a deficit balance in unrestricted net position:

Information Technology

The County's Information Technology fund reported a negative unrestricted net position of \$3,730,503 as of September 30, 2023. This negative balance was a result of the restricting of capital assets.

Risk Management

The County's Risk fund reported a negative unrestricted net position of \$423,966 as of September 30, 2023. This negative balance was result of an increase in actuarial determined vehicle liability that impacted claims paid.

Public Works

The Public Works Fund has a negative unrestricted net position of \$2,789,193 as of September 30, 2023. This negative balance is due to the application of pension related accounts as defined in GASB 68.

NOTE 16. TAX ABATEMENT

Sarasota County has entered into certain agreements that involve tax abatements authorized by Article VII, Section 3 of the Constitution of the State of Florida, and, Section 196.1995 Florida Statutes. The following table outlines the key information regarding the entities involved and the type and amount of taxes abated during the fiscal year ended September 30, 2023.

<u>Contracted Entity</u>	<u>Abatement Program</u>	<u>Type of Tax Abated</u>	<u>Amount of Tax Abated</u>	<u>Commitment By Contracted Entity</u>
Harmar	Exemption	Ad Valorem	\$ 924	Facility Expansion
Codeware, Inc.	Exemption	Ad Valorem	\$ 19,050	Facility Expansion
King Plastic Corporation	Exemption	Ad Valorem	\$ 2,399	Facility Expansion
PGT Industries	Exemption	Ad Valorem	\$ 29,195	Facility Expansion

Note: Information is required to be presented for 10 years. However, until a full 10-year trend is compiled, the County will present information for only those years for which information is available.

Note: Effective January 1, 2019, the Sheriff established a fully-insured group health plan intended to provide medical and prescription benefits to current and retired employees of the Sheriff. Prior to January 1, 2019, employees and retirees were covered under the County's comprehensive health plan. Furthermore, it was determined that assets accumulating in the trust vehicle administered by the County are not available to pay post-employment benefits of the Sheriff's retirees. As such, benefits provided to Sheriff's retirees are considered to constitute a separate unfunded OPEB plan.

Note: Information is required to be presented for 10 years. However, until a full 10-year trend is compiled, the County will present information for only those years for which information is available.

Note: Effective January 1, 2019, the Sheriff established a fully-insured group health plan intended to provide medical and prescription benefits to current and retired employees of the Sheriff. Prior to January 1, 2019, employees and retirees were covered under the County's comprehensive health plan. Furthermore, it was determined that assets accumulating in the trust vehicle administered by the County are not available to pay post-employment benefits of the Sheriff's retirees. As such, benefits provided to Sheriff's retirees are considered to constitute a separate unfunded OPEB plan.

This Page Intentionally Left Blank

Governmental Funds

Nonmajor Special Revenue Funds

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Transportation - To account for the operation of the administration, highway maintenance, traffic and engineering divisions of the Transportation Department.

Building and Zoning - To account for the operation of the administration and development services divisions of the Building Department.

Tourist Development - To account for proceeds of the Tourist Development Tax.

Franchise Utilities - To account for the proceeds of utility taxes collected within the County.

Mosquito Control - To account for the operations relative to mosquito control activities.

Grants in Aid - To account for ad valorem taxes and Choose Life license plate fees used for the Grants-In-Aid program to non-profit organizations that operate children, adoption and youth services and programs.

Environmental Resources - To account for the 50-cent surcharge per auto tag issued for air quality programs, to account for ad valorem taxes used for the operating portion of environmentally sensitive land acquisitions, and to account for fines received for violations of the Sarasota County tree removal ordinance and Air and Water Pollution Code.

Gifts, Donations and Recreation - To account for gifts and donations made to the County for specific purposes and to account for special interest/events related to recreation.

Improvement Districts - To account for monies collected for the improvement of a specific area within the County.

Court Improvements - To account for monies to be used for the provision and maintenance of court facilities and equipment.

Street Lighting Districts - To account for the operation of supplying street lighting to specific areas in the County.

Arts in Public Places - To account for the allocation of one percent of eligible construction funds to be used to purchase or commission art for government facilities.

Economic Development - To account for funds used for community redevelopment and promotion of industrial development within the County.

Moving Violation Surcharge - To account for proceeds of the \$12.50 surcharge per moving violation.

Mental Healthcare Special District - To account for the operation of providing mental health services for persons residing in Sarasota County.

Nonmajor Special Revenue Funds (continued)

Law Enforcement - To account for revenues received for restitution of damage to either the Sheriff's property or to an officer's property. Funds from the sale of confiscated property and unclaimed evidence are also recorded in this fund.

Sheriff's Funds - To account for forfeited property in accordance with state and federal contractual obligations and Florida Statutes; to account for monies collected by the Clerk of Circuit Court and remitted to the Sheriff to provide for education and training of Sheriff's personnel; and to account for revenue from the sale of various items to prisoners.

Clerk's Funds - To account for monies to be used for purchasing equipment, personnel training, and technical assistance in modernizing the official records system.

Nonmajor Debt Service Funds

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long term debt principal and interest.

Bank Term Loans - To account for debt service on funds used for a variety of capital improvement projects, equipment purchases, and other uses.

Commercial Paper - To account for debt service on funds used for a variety of capital improvement projects, equipment purchases, and other uses.

Second Guaranteed Entitlement Series 2013 - To account for debt service on funds used to finance the planning, engineering, constructing, reconstructing, and equipping of the Sarasota Emergency Operations Center.

Infrastructure Sales Surtax Series 2014A, Series 2015, Series 2018 - To account for debt service on funds used to advance refund all or a portion of the Infrastructure Sales Surtax Revenue Bonds Series 2008B maturing on or after October 1, 2018, Series 2008A maturing on or after October 1, 2019, and to refinance certain loans from the Pooled Commercial Paper Loan Program of the Florida Local Government Finance Commission, respectively.

Capital Improvement Series 2017 - To account for debt service on funds used to finance a portion of the cost of the acquisition and construction of the spring training facility for the Atlanta National league Baseball Club, LLC.

Capital Improvement Series 2018A - To account for debt service on funds used to refinance a loan from the Pooled Commercial Paper Loan Program of the Florida Local Government Finance Commission, the proceeds of which were used to finance the costs of the acquisition, construction and equipping of the Sheriff's Office and Administrative Headquarters Facility.

Capital Improvement Series 2018B - To account for debt service on funds used to refinance loans from the Pooled Commercial Paper Loan Program of the Florida Local Government Finance Commission.

General Obligation Bond, Series 2019, Series 2020 - To account for debt service on funds used to finance a portion of the costs of the acquisition and improvement of the Legacy Trail Extension railroad corridor within the County.

Capital Improvement Series 2019A - To account for debt service on funds used to finance the cost of the construction of a new Sheriff's Office Support Services Facility, to provide for Sheriff's vehicles maintenance and administrative support functions.

Nonmajor Debt Service Funds (continued)

Capital Improvement Series 2019B - To account for debt service on funds used to advance refund all of the County's outstanding Capital Improvement Bonds, Series 2010A maturing on or after October 1, 2020 and the County's outstanding Communications Services Tax Revenue Bonds, Series 2010 maturing on or after October 1, 2020.

Capital Improvement Series 2019C - To account for debt service on funds used to advance refund all of the County's outstanding Capital Improvement Bonds, Series 2010B maturing on or after October 1, 2020.

Capital Improvement Series 2020 - To account for debt service on funds used to finance the design and construction of the Downtown Cooling Plant, Facilities Energy Conservation Measures Upgrades, and the East Jail Controls Upgrade.

Public Improvement Series 2021A - To account for debt service on funds used to advance refund all of the County's outstanding Second Guaranteed Entitlement Revenue Bonds, Series 2013 maturing on or after October 1, 2021.

Public Improvement Series 2021B - To account for debt service on funds used to refinance the commercial paper loans used to improve the Apex Fire Station, Fire Station #21, Bee Ridge Fire Station, Bee Ridge Fuel Site and the Pinkney Fuel Site.

Capital Improvement Series 2023A - To account for debt service on funds used to pay off the commercial paper loan used for Emergency Service Administration building design, Mosquito Management Facility building, and the Emergency Services Administration building.

Nonmajor Capital Projects Funds

Capital Projects Funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary and trust funds.

Motor Fuels Taxes - To account for various road projects that are financed by additional local option gas tax.

Commercial Paper - To account for road, general government, and public safety projects that are financed by the issuance of commercial paper.

Impact Fees - To account for mobility/road, park, library, law enforcement, justice facility, general government, EMS, and Fire projects that are financed by impact fees.

Ad Valorem Taxes - To account for ad valorem taxes used to purchase environmentally sensitive land.

All Other Capital Projects - To account for all other capital project revenues including grants and cable television franchise fees.

Nonmajor Permanent Funds

Permanent Funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting government's programs.

Library Endowment - To account for principal endowment amounts and related interest income. The interest portion of the endowments can be expended for purposes as specified by donors.

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units, on a cost reimbursement basis.

Fleet Services – To account for the rental of motor vehicles to other departments and related costs.

Information Technology – To account for the operation of the County's Computer Replacement and Information Technology Enhancement programs.

Risk Management – To account for the self insurance cost of providing coverage for property, general and vehicle liability.

Medical Benefits – To account for the provisions of health and dental benefits to County employees and their dependents through the County's self insurance program.

Workers' Compensation – To account for payment of worker's compensation claims, in lieu of insurance.

Public Works – To account for the County's overhead charges related to the design and construction of capital improvement projects.

Field and General Services – To account for the County's internal operational and maintenance services.

Sheriff's Insurance – To account for the provisions of health and dental benefits to Sheriff's Office employees and their dependents through the Sheriff's Office self insurance program.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and which therefore cannot be used to support the government's own programs.

Board's Custodial – To account for all assets held by the Board of County Commissioners as an agent for individuals, organizations, or other governments. These funds are: Abandoned Property, Cash Performance and Bid Bonds, and Subdivision Improvement Bonds.

Clerk's Custodial – To account for all assets held by the Clerk of Circuit Court as an agent for individuals, organizations, or other governments. These funds are: Fines and Forfeitures, Tax Deeds Application, Support, Clerk's Fees, Documentary Stamps, Court Registry, D.O.T. Registry, B.C.C. Registry, Restitution, Cash Bonds, County Court Trust, Circuit Court Trust, County Witness, and State Jury Witness.

Sheriff's Custodial – To account for all assets held by the Sheriff as an agent for individuals, organizations, or other governments. This fund is the Prisoner Fund.

Tax Collector's Custodial – To account for all assets held by the Tax Collector as an agent for individuals, organizations, or other governments. These funds are: Distribution and State Agency.

SARASOTA COUNTY COURTHOUSE

On July 1, 1921, Sarasota County came into existence. Interest in breaking away from Manatee County had led to a series of public meetings the previous summer. Lack of good roads, inadequate representation in Tallahassee, and subjection to isolation by other sections of the county were among the grievances cited by the citizens.

For nearly five years, the new county government operated out of the Hover Arcade, a building at the foot of Sarasota's Main Street that also housed Sarasota City Hall. County officials used a temporary building on Oak Street for another year before moving into the courthouse.

By late 1924, the Board of County Commissioners began steps to construct a county courthouse. Charles and Edith Ringling conveyed land for the building. In March 1925, the Commissioners hired nationally renowned architect Dwight James Baum to be the supervising architect for the courthouse and in June they approved the preliminary drawings. In September they awarded the construction contract to Stevenson & Cameron, Inc., of New York. By February 1927 county officials completed their move into the new building.

**Statistical Section
(unaudited)**

The statistical data presents physical, economic, social, and political characteristics of Sarasota County. It is intended to provide users with a more broad and complete understanding of the County and its financial affairs than is possible from the financial statements and supporting schedules included in the financial section.

<u>Contents</u>	<u>Pages</u>
Financial Trends	268-277
These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.	
Revenue Capacity	279-291
These schedules contain information to help the reader assess the County's most significant local revenue source, property taxes.	
Debt Capacity	292-304
These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.	
Demographic and Economic Information	305-308
These schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place and to help make comparisons over time and with other governments.	
Operating Information	309-313
These schedules contain information about the County's operations and resources to help the reader understand how the County's financial information relates to the services the County provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

Ad valorem taxes levied apply only to General, Special Revenue and Debt Service Funds.

Property tax levies, based on assessed values as of January 1st, become due and payable on November 1st of each year. A four percent discount is allowed if the taxes are paid in November, with the discount declining by one percent each month thereafter. Accordingly, taxes collected will never be 100 percent of the tax levy. Taxes become delinquent on April 1st of each year and tax certificates for the full amount of any unpaid taxes and assessments must be sold no later than June 1st of each year. Collections received subsequent to the tax sales are remitted by the Tax Collector directly to the certificate holders.

Property taxes receivable and a corresponding reserve for uncollectible property taxes are not included in the financial statements as there are no significant delinquent taxes as of September 30, 2023.

Discount allowed:

November -	4%
December -	3%
January -	2%
February -	1%
April -	Taxes delinquent

(1) Special assessments are assessments collected for taxing districts controlled by the Sarasota County Board of County Commissioners.

(2) Special assessments become delinquent on April 1st of each year and tax certificates for the full amount of unpaid taxes are sold prior to June 1st of each year. Subsequent collections are remitted by the Tax Collector directly to the certificate holder. Accordingly, unpaid delinquent taxes are insignificant. Special assessments collected include proceeds from tax certificate sales on all delinquent real property.

- Note:** Details regarding the County's outstanding debt can be found in the notes to the financial statements.
- (1) The bond resolution for the Stormwater Special Assessment Revenue Bonds gives the County the option of an extraordinary redemption during the fiscal year. This option was exercised each fiscal year that the bonds were outstanding.
 - (2) Statistical presentation is not intended to reflect legal compliance. Therefore, there may be a difference from the other supplemental schedules section.
 - (3) Represents partial redemption of Utility Revenue Bonds, Series 2002A of \$4,210,000 and partial redemption of Utility Revenue Bonds, Series 2002B of \$3,440,000. In FY15, the Utility Revenue Refunding Note, Series 2015 fully refunded the Utility System Revenue Bonds, Series 2005A. In FY 16, the Utility System Revenue Refunding Bonds, Series 2016B fully refunded the Utility System Revenue Bonds, Series 2007. In FY19, the Utility System Revenue Refunding Bonds, Series 2019A fully refunded the Utility System Revenue Bonds, Series 2010. In FY21, the Utility System Revenue Refunding Bonds, Series 2020B (Federally Taxable) partially refunded the Utility System Revenue Refunding Bonds, Series 2011A and the Utility System Revenue Bonds, Series 2013.
 - (4) The bonded Phillippi Structure/Street basins are no longer assessing for repayment of the 1999 Stormwater Utility Revenue Bonds as pursuant to the bond covenants.
 - (5) In FY15, the Solid Waste Revenue Refunding Note, Series 2015 fully refunded the Solid Waste Revenue Bonds, Series 2005.
 - (6) Effective fiscal year 2014, federal interest reimbursement is no longer included in gross revenue. Debt service interest is net of federal interest reimbursement.

SARASOTA COUNTY COURTHOUSE

On July 1, 1921, Sarasota County came into existence. Interest in breaking away from Manatee County had led to a series of public meetings the previous summer. Lack of good roads, inadequate representation in Tallahassee, and subjection to isolation by other sections of the county were among the grievances cited by the citizens.

For nearly five years, the new county government operated out of the Hover Arcade, a building at the foot of Sarasota's Main Street that also housed Sarasota City Hall. County officials used a temporary building on Oak Street for another year before moving into the courthouse.

By late 1924, the Board of County Commissioners began steps to construct a county courthouse. Charles and Edith Ringling conveyed land for the building. In March 1925, the Commissioners hired nationally renowned architect Dwight James Baum to be the supervising architect for the courthouse and in June they approved the preliminary drawings. In September they awarded the construction contract to Stevenson & Cameron, Inc., of New York. By February 1927 county officials completed their move into the new building.

Comparison of Monthly Water and Wastewater Service
September 30, 2023

A comparison of service to a single-family residential customer using 4,000 gallons of water per month under the above rates in other comparable Florida communities as of September 30, 2023 is as follows:

<u>Jurisdiction/Agency (1)</u>	<u>Water-Only</u>	<u>Wastewater-Only</u>	<u>Combined Service</u>
Sarasota County: System (2)	\$ 29.56	\$ 59.77	\$ 89.33
City of Sarasota	34.71	57.16	91.87
City of Venice	52.44	58.52	110.96
City of North Port	42.24	61.99	104.23
Englewood Water District	29.70	44.23	73.93
Charlotte County	46.29	62.93	109.22
Manatee County	19.18	44.12	63.30
City of Bradenton	27.53	34.76	62.29
Collier County	39.70	61.21	100.91
Hillsborough County	31.94	40.58	72.52
Pinellas County	32.45	55.49	87.94

(1) Amounts shown are exclusive of taxes or franchise fees, if any, and are rates as of September 30.

(2) A \$2.82 billing charge has been included in the Water-Only rate for presentation purposes; however a Wastewater-Only customer must pay a billing charge as well.

- (1) Amounts shown do not include interest income earned on balances in the construction funds relating to the Bonds, the FDEP Loans or the Commercial Paper Loan and impact fee funds, if any, which are restricted to such accounts, or the unrealized gain on the fair market adjustment of investments pursuant to the Resolution.
- (2) Amounts shown do not include depreciation or amortization expenses or internal administrative charges pursuant to the Resolution. Fiscal years' 2019 and 2020 cost of operation and maintenance have been adjusted for internal administrative charges which were inadvertently excluded.
- (3) Generally, under Florida law, Impact Fees may be validly imposed against new construction or development in order to fund capital improvements or capacity which are necessitated by such new construction or development to satisfy debt service for the bonds or other obligations issued for such purposes. Proceeds of such Impact Fees may be used only for the capital improvements or capacity attributable to the new construction or to pay associated debt service.
- (4) Senior lien bonds debt service is net of any federal interest reimbursement.
- (5) Includes debt service on the FDEP Loans, but not on the Commercial Paper Loan.
- (6) The junior lien debt coverage test is based on the combined debt service requirements of the Bonds and the Subordinate Obligations (excluding the Commercial Paper Loan).
- (7) Required coverage pursuant to agreements made by the County regarding the FDEP Loans.
- (8) Operating expenses shown from 2018-2020 have been adjusted to include true operating expenditures of the utility system

Note: Information is required to be presented for 10 years. However, until a full 10-year trend is compiled, the County will present information for only those years for which information is available.

Note: Effective January 1, 2019, the Sheriff established a fully-insured group health plan intended to provide medical and prescription benefits to current and retired employees of the Sheriff. Prior to January 1, 2019, employees and retirees were covered under the County's comprehensive health plan. Furthermore, it was determined that assets accumulating in the trust vehicle administered by the County are not available to pay post-employment benefits of the Sheriff's retirees. As such, benefits provided to Sheriff's retirees are considered to constitute a separate unfunded OPEB plan.

Single Audit Grants Compliance Section

SARASOTA COUNTY COURTHOUSE

On July 1, 1921, Sarasota County came into existence. Interest in breaking away from Manatee County had led to a series of public meetings the previous summer. Lack of good roads, inadequate representation in Tallahassee, and subjection to isolation by other sections of the county were among the grievances cited by the citizens.

For nearly five years, the new county government operated out of the Hoyer Arcade, a building at the foot of Sarasota's Main Street that also housed Sarasota City Hall. County officials used a temporary building on Oak Street for another year before moving into the courthouse.

By late 1924, the Board of County Commissioners began steps to construct a county courthouse. Charles and Edith Ringling conveyed land for the building. In March 1925, the Commissioners hired nationally renowned architect Dwight James Baum to be the supervising architect for the courthouse and in June they approved the preliminary drawings. In September they awarded the construction contract to Stevenson & Cameron, Inc., of New York. By February 1927 county officials completed their move into the new building.

SARASOTA COUNTY HISTORICAL COMMISSION 2001

INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Board of County Commissioners
Sarasota County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Sarasota County, Florida (the “County”), as of and for the year ended September 30, 2023, and the related notes to the financial statements, which collectively comprise the County’s basic financial statements, and have issued our report thereon dated February 20, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County’s internal control. Accordingly, we do not express an opinion on the effectiveness of the County’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and

material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Carr, Riggs & Ingram, L.L.C.

Carr, Riggs, & Ingram, LLC

Sarasota, Florida
February 20, 2024

INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND STATE PROJECT AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND CHAPTER 10.550, RULES OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

Honorable Board of County Commissioners
Sarasota County, Florida

Report on Compliance for Each Major Federal Program and State Project

Qualified and Unmodified Opinions

We have audited Sarasota County, Florida’s (the “County”) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* and the requirements described in the *State of Florida Department of Financial Services’ State Projects Compliance Supplement* that could have a direct and material effect on each of the County’s major federal programs and state projects for the year ended September 30, 2023. The County’s major federal programs and state projects are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

Qualified Opinion on CDBG – Entitlement Grants Cluster

In our opinion, except for the noncompliance described in the Basis for Qualified and Unmodified Opinions section of our report, the County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on CDBG – Entitlement Grants Cluster for the year ended September 30, 2023.

Unmodified Opinion on Each of the Other Major Federal Programs and State Projects

In our opinion, the County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs and state projects identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs for the year ended September 30, 2023.

Basis for Qualified and Unmodified Opinions

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.550, *Rules of the Auditor General Local Governmental Entity Audits*. Our responsibilities under those standards and the Uniform Guidance and Chapter 10.550, Rules of the Auditor General are further described in the Auditor’s Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified and unmodified opinions on compliance for each major federal program and state project. Our audit does not provide a legal determination of the County's compliance with the compliance requirements referred to above.

Matter Giving Rise to Qualified Opinion on CDBG – Entitlement Grants Cluster

As described in the accompanying schedule of findings and questioned costs, the County did not comply with requirements regarding CDGB – Entitlement Grants Cluster as described in finding number 2023-001 for Reporting.

Compliance with such requirements is necessary, in our opinion, for the County to comply with the requirements applicable to that program.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the County's federal programs and state projects.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance and Chapter 10.550, Rules of the Auditor General, will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the County's compliance with the requirements of each major federal program and state project as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance and Chapter 10.550, Rules of the Auditor General, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.

- Obtain an understanding of the County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and Chapter 10.550, Rules of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

Government Auditing Standards requires the auditor to perform limited procedures on the County's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified. However, as discussed below, we did identify certain deficiencies internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program or state project on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or state project will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2023-001 to be a material weakness.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program or state project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2023-002 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the County's response to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and Chapter 10.550, Rules of the Auditor General. Accordingly, this report is not suitable for any other purpose.

Sarasota County, Florida
Notes to the Schedule of Expenditures of Federal
Awards and State Financial Assistance
September 30, 2023

1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards and State Projects (the Schedule) includes the Federal and State grant activity for Sarasota County, Florida (the County) and is presented on the modified accrual basis of accounting for expenditures accounted for in the governmental funds and the accrual basis of accounting for expenditures in proprietary funds. Under the modified accrual basis, revenue is recognized if it is both measurable and available for use during the fiscal year, and expenditures are recognized in the period liabilities are incurred, if measurable. Under the accrual basis, expenditures are recognized in the period liabilities are incurred.

The information in the schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and Section 215.97, Florida Statutes. Therefore, some amounts presented in the Schedule may differ from amounts presented, or used in the preparation of the basic financial statements for the fiscal year ended September 30, 2023.

2. Indirect Cost Rate

The County has elected to use the 10 percent de minimis cost rate allowed under the Uniform Guidance, if appropriate.

3. Contingency

The grant revenue amounts received are subject to audit and adjustment. If any expenditures or expenses are disallowed by the grantor agencies as a result of such an audit, any claim for reimbursement to the grantor agencies would become a liability of the County.

4. Subrecipients

Of the expenditures presented in the Schedule, Sarasota County provided, as practical, federal awards and state financial assistance to subrecipients as follows:

Program Title	ALN/State CSFA Number	Amount Provided to Subrecipients
Community Development Block Grants/Entitlement Grants	14.218	\$ 1,825,546
Emergency Solutions Grant Program	14.231	436,233
Edward Byrne Memorial Justice Assistance Grant Program	16.738	110,898
Community Services Block Grant	93.569	191,492
COVID19 Coronavirus State and Local Fiscal Recovery Funds	21.027	<u>2,300,000</u>
Total Provided to Subrecipients		<u>\$ 4,864,169</u>

Sarasota County, Florida
Notes to the Schedule of Expenditures of Federal
Awards and State Financial Assistance
September 30, 2023

5. Disaster Grants - Public Assistance (Presidentially Declared Disasters) (97.036)

After a presidentially declared disaster, FEMA provided Disaster Grants – Public Assistance (Presidentially Declared Disasters) (CFDA 97.036) to reimburse eligible costs associated with emergency protective measures taken to respond to the COVID-19 emergency. Florida Covid-19 Pandemic (DR-4486-FL) affected Sarasota County with an Incident Period beginning on January 20, 2020. In 2023, \$927,388 in eligible expenditures were approved that were incurred in 2021 and are included in the Schedule.

FEDERAL PROGRAMS AND STATE PROJECTS
For The Year Ended September 30, 2023

SECTION II – FINANCIAL STATEMENT FINDINGS

None noted

SECTION III – FEDERAL AWARD STATE PROJECT FINDINGS

2023-001 – Material Weakness – Internal Controls over Reporting and Noncompliance

Department of Housing and Urban Development – Direct Program – CDGB Entitlement Grants Cluster – ALN 14.218 – Program Year 2023

Criteria – 2 CFR section 200.303 – Internal Controls of the Uniform Guidance states that the non-federal entity must (a) establish and maintain effective internal controls over federal award that provides reasonable assurance that the non-federal entity is managing the federal award in compliance with federal statutes, regulations, and the terms and conditions of the federal award. These internal controls should be in compliance with guidance in “Standards in Internal Control in the Federal Government” issued by the Comptroller General of the United States or the “Internal Control by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)”.

2 CFR Part 170 requires non-federal entities making first-tier subawards of federal funding to comply with the reporting requirements of the Federal Funding Accountability and Transparency Act of 2006 (FFATA) (Public Law 109-282), as amended by section 6202 of Public Law 110-252. Compliance with FFATA requires prime recipients, to report certain information about subawards to the FFATA Subaward Reporting System (FSRS) by the end of the month, plus 30 days, in which the award is made.

Condition – The County did not report required information about subawards made under Assistance Listing No. 14.218 to the FSRS as required by FFATA within the timeline required. There were 7 subawards not reported representing \$2,417,617 in total.

Cause/Effect – The County did not have internal controls in place to ensure accurate and timely subaward information is reported to the FSRS.

Questioned Costs – None

Auditor’s Recommendation – We recommend that the County have policies in place to ensure information is reported to the FSRS as required by FFATA.

Management Response – See Corrective Action Plan Letter

SARASOTA COUNTY, FLORIDA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS-
FEDERAL PROGRAMS AND STATE PROJECTS
For The Year Ended September 30, 2023

2023-002 – Significant Deficiency – Internal Controls over Procurement

Department of Treasury – Direct Program – COVID 19 Coronavirus State and Local Fiscal Recovery Funds – ALN 21.027 – Program Year 2023

Criteria – Coronavirus State and Local Fiscal Recovery Fund (CSLFRF) award funds may be used to enter into contracts to procure goods and services necessary to implement one or more of the eligible purposes outlined in 42 sections 802(c) and 803(c) and the Treasury’s Interim and Final Rules. Recipients are expected to have procurement policies and procedures in place that comply with the procurement standards outlined in the Uniform Guidance as set out in 2 CFR sections 200.318 through 200.326.

Condition – The County did not obtain the supporting documentation from the Medical Examiner’s Office at the time of the purchases to support that the procurement standards as outlined in Uniform Guidance had been followed.

Cause/Effect – The State of Florida Medical Examiner does have procurement policies in place that state that the County’s Medical Examiner shall follow the procurement standards as outlined in the Uniform Guidance. The County Medical Examiner follows the procurement policies of the State of Florida Medical Examiner. However, the County did not obtain documentation from the County Medical Examiner to support the procurement policies and Uniform Guidance had been followed as of the time of the purchase.

Questioned Costs – None

Auditor’s Recommendation – We recommend the County obtain all documentation to support compliance with procurement under Uniform Guidance prior to the purchase of goods or services.

Management Response – See Correction Plan Letter

SECTION IV – SUMMARY OF PRIOR YEAR AUDIT FINDINGS

None noted

February 9, 2024

Lorri Kidder, CPA Partner
Carr, Riggs & Ingram, LLC
1001 Third Avenue West, Suite 500
Bradenton, FL 34205

Dear Ms. Kidder,

Following are management responses to the internal control findings:

2023-002 (CDBG Entitlement Grants Cluster / ALN 14.218) – Material Weakness – Internal Controls over Reporting and Noncompliance

The Office of Financial Management (OFM) Grant Program Administrator, Heather Larson will monitor and ensure that Federal Funding Accountability and Transparency Act of 2006 (FFATA) reports are filed as required in the FSRS system. Since the recent transition of the CDBG Entitlement Cluster from an outside agency back to Sarasota County, the County has implemented a standardized form to capture needed information from current and future subrecipients to report appropriately the requirements of the Federal Funding Accountability and Transparency Act of 2006 (FFATA).

The OFM Grant Analyst assigned to the funding award, upon review of any pending subaward/subaward amendment, will create an Action Item utilizing the Grants Administration module of OnBase. The Action Item will require completion of any required FSRS reporting. Action item will be assigned and have a deadline date no later than the last day of the month following the month in which the subaward/subaward amendment obligation was made.

Implementation date for this process – On or before February 28, 2024.

2023-005 (COVID 19 Coronavirus State and Local Fiscal Recovery Funds/ALN21.027 – Significant Deficiency – Internal Controls over Procurement

Prior to purchase, Sarasota County worked with the State of Florida Medical Examiner to create and document procurement policies in conformance with the Uniform Guidance, to include sourcing of quotes, issuance of purchase orders, and certifications by vendors on acknowledgment and adherence to applicable 2 CFR requirements.

The County acknowledges that the State of Florida Medical Examiner conformed with these requirements prior to purchase to include noncompetitive purchases which was further supported in a dated letter provided by the Chief Medical Examiner. The Program Division Manager, Steve Hyatt shall require and retain such additional documentation within its procurement files and will conform to sourcing this documented information for these instances prior to any future purchases.

Implementation date for this process – Immediately.

Regards,

Kim Radtke

SARASOTA COUNTY COURTHOUSE

On July 1, 1921, Sarasota County came into existence. Interest in breaking away from Manatee County had led to a series of public meetings the previous summer. Lack of good roads, inadequate representation in Tallahassee, and subjection to isolation by other sections of the county were among the grievances cited by the citizens.

For nearly five years, the new county government operated out of the Hover Arcade, a building at the foot of Sarasota's Main Street that also housed Sarasota City Hall. County officials used a temporary building on Oak Street for another year before moving into the courthouse.

By late 1924, the Board of County Commissioners began steps to construct a county courthouse. Charles and Edith Ringling conveyed land for the building. In March 1925, the Commissioners hired nationally renowned architect Dwight James Baum to be the supervising architect for the courthouse and in June they approved the preliminary drawings. In September they awarded the construction contract to Stevenson & Cameron, Inc., of New York. By February 1927 county officials completed their move into the new building.

MANAGEMENT LETTER

Honorable Members of the
Board of County Commissioners
Sarasota County, Florida

Report on the Financial Statements

We have audited the financial statements of the Sarasota County, Florida (the “County”), as of and for the fiscal year ended September 30, 2023, and have issued our report thereon dated February 20, 2024.

Auditor’s Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (Uniform Guidance); and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor’s Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Auditor’s Report on Compliance for Each Major Federal Program and State Project and Report on Internal Control over Compliance Required by Uniform Guidance and Chapter 10.550, Rules of the Auditor General of the State of Florida; Schedule of Findings and Questioned Costs; and Independent Accountant’s Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated February 20, 2024, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no such matters reported in the preceding annual financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The legal authorities for the County and its component units are disclosed in the footnotes.

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the County met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the County did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the County. It is management's responsibility to monitor the County's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Special District Component Units

Section 10.554(1)(i)5.c., Rules of the Auditor General, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, provided the financial information necessary for proper reporting of the component unit, within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component units that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

Specific Information

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)6, Rules of the Auditor General, Sarasota County reported:

Sarasota County Mosquito Control:

- a. The total number of district employees compensated in the last pay period of the County's fiscal year as 25.
- b. The total number of independent contracts to whom nonemployee compensation was paid in the last month of the district's fiscal year as 0.
- c. All compensation earned by or awarded to employees, whether paid or accrued, regardless of contingency as \$971,864.
- d. All compensation earned or awarded to nonemployee independent contractors, whether paid or accrued, regardless of contingency as \$0.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board of County Commissioners, and management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANT'S REPORT

Honorable Members of the
Board of County Commissioners
Sarasota County, Florida

We have examined Sarasota County, Florida's (the "County") compliance with the following Florida Statutes sections during the fiscal year ended September 30, 2023:

Section 365.172(10) Emergency communications number E911 system fund
Section 365.173(2)(a) Emergency communications number E911 system fund
Section 218.415 Investment of public funds

Management of the County is responsible for the County's compliance with the specified requirements. Our responsibility is to express an opinion on the County's compliance with the specified requirements based on our examination. Our responsibility is to express an opinion on the County's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the AICPA. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the County complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the County complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the examination engagement.

Our examination does not provide a legal determination on the County's compliance with specified requirements.

In our opinion, the County complied, in all material respects, with the aforementioned requirements during the fiscal year ended September 30, 2023.

This report is intended solely for the information and use of the Florida Auditor General, Sarasota County, Florida, Board of County Commissioners and management, and is not intended to be and should not be used by anyone other than these specified parties.
